Leasing Consultant:	AvenueOne, Forest Park, IL
Civil Engineer:	Bono Consulting Inc, Chicago, IL
Traffic Consultant:	Gewalt Hamilton Associates, Vernon Hills, IL

PD Application
Item 1
NARRATIVE

Project Narrative

The proposed development consists of the construction of a six-story building with eighty-four (84) units and eighty-eight (88) parking spaces. The ground floor consists of the residential lobby, elevator, surface parking, waste and recycling center, bicycle storage, fitness center, management office and a bank ATM kiosk. The upper floors consist of one, two and three bedroom units. Each unit has a balcony for outdoor living.

Pedestrian entrance to the building is located on Lake Street – the primary elevation for the building. The vehicular entrance and exit to the building are located on the alley to the south of the proposed building. The decision to locate the vehicle entrance on the alley was intentional in that it routes the traffic generated by the development, including service traffic, away from Lake Street thereby eliminating two oversized, pedestrian unfriendly and potentially hazardous driveways on Lake Street.

The proposed building's architecture and massing is deferential to Unity Temple to the west and the Oak Park Public Library's main branch building to the North. The height of the building has been crafted so as not to eclipse the streetscape, and specifically not to impose on the visual space of Unity Temple or impede the sightlines from Lake Street.

The Applicant and the Development Team believe that the proposed development is consistent with Oak Park's Envision Oak Park Plan and will be an asset to the Lake Street corridor and further support Oak Park's smart growth path.

Development allowances requested

In order to construct the proposed development, the following zoning relief is requested:

Building Height: 45 feet allowed to **74 feet proposed**

Building Setback: rear yard setback from 25 feet to **14 feet proposed**

Building Setback: side yard (west) setback from 10 feet to **5 feet proposed**

Maximum Lot Coverage: 70% allowed, **75% proposed**

Maximum number of units: from 46 allowed to **84 proposed**

For a more detailed zoning analysis, see Space Architects + Planners Zoning Analysis dated 9.24.2020 as Exhibit A

Compensating benefits

Section 14.5.E.2.a.a Community Amenities: The Applicant hereby proposes the following items as Compensating Benefit for Allowances requested:

1. The removal of two driveways and curb cuts on Lake Street and construction of curbs, gutters and other public improvements related to the reconstruction in the public right of way as a result of the driveways.
2. The removal and replacement of the public walk along the entire North property line along Lake Street.
3. The addition of 3 parking spaces along Lake Street as a result of the removal of two driveways as noted in Item 1.
4. The donation of 16 parking spaces in Lot 96 located at 822 North Boulevard for a period of five years. At the expiration of the five-year period, the Applicant shall assess the parking needs of the Building, and in coordination with Village of Oak Park Staff, determine the allocation of parking on this Lot. The Applicant's estimate of value for this donation is $70,400
   See Exhibit S for the calculation of value
5. The provision of an easement for the benefit of the 815 Lake Street Condominium Association and its residents along the East property line.
6. Construction of a concrete walkway from Lake Street to the rear of the building for use by the residents at 815 Lake Street so as to access their west facing stairs and decks. It should be noted that the stairs cited in this Item are the second means of egress for the west facing units at the 815 Lake Street Condominium.
7. A Private Tree Restitution payment for the removal of existing trees located on site required to accommodate the proposed building. Per the Private Tree Restitution Report prepared by the Forestry Department this payment will total $15,951.68. See Exhibit X.

Section 14.5.E.2.a.b Affordable Housing Set-asides

The Applicant and the Developer has elected to provide a payment in lieu of providing affordable units on site pursuant to Section 12-5-7. The Applicant calculates this payment to be $900,000

The Applicant and the Developer has elected to provide an additional contribution to the Oak Park Housing Fund in the amount of $100,000

The total contribution to the Housing Fund recommended by the Applicant and the Developer is $1,000,000

Village improvements

The Developer's Design Team met with Fire Chief, Thomas Ebsen, and Police Chief, LaDon Reynolds virtually on Tuesday August 18, 2020

After the presentation of the development and after answering questions from Chief Reynolds and Chief Ebsen, the Applicant has received favorable letters from each of the two Chiefs named.
See Attached letters dated August 19, 2020.

See Exhibit U

The Developer's Design Team has been in communication with the Village Engineer, Mr. Bill McKenna. A fire flow test was conducted on September 9, 2020.

After review of the fire flow test results and the proposed engineering plans, the Applicant received a favorable letter from Mr. McKenna indicating the proposed development will not create any adverse effects on the Village's water distribution system, and more importantly, will reduce the burden on the Village's sewer system as compared to the existing conditions.

See Attached letter dated September 4, 2020.
See Attached fire flow test results dated September 9, 2020.

See Exhibit V

Petition for Public Hearing

Attached to this Application, please find the completed and executed Petition for Public Hearing dated July 2, 2020.

FEE

The application fee has been paid online prior to the submittal of this Application.

PD Application
Item 3
STANDARDS

Plan Development Standards
Standards for Review Section 14.5 H of the Zoning Ordinance

1. The proposed development and use or combination of uses is consistent with the goals and objectives of the Comprehensive Plan and has been considered in relation to any other plans adopted by the Village.

The Applicant has submitted a set of documents that include a Site Plan, Landscape Plan, Engineering Utility Plan, Exterior Lighting Plan, Floor Plans, Building Elevations, Streetscape Elevations, Shadow Studies, and a Construction Logistics Plan as part of this Application. Further, the Applicant has identified a series of Objectives as listed in the Village's Envision Oak Park Comprehensive Plan and Oak Park's Madison Corridor Plan 2014 and cited where the proposed development helps the Village achieve the Goals set out therein. Please see Exhibit N for a detail listing of the Objectives and how this development assists the Village in attaining such Goals.

2. The establishment, maintenance, or operation of the use or combination of uses will not be materially detrimental to or endanger the public health, safety, and welfare of the Village.

The Applicant has submitted a set of documents that include a Site Plan, Landscape Plan, Engineering Utility Plan, Exterior Lighting Plan, Floor Plans, Building Elevations and a Construction Logistics Plan as part of this Application. Further, the Applicant states that the building, if the Application for Planned Development is approved will be fully compliant with all provisions of the International Building Code as adopted by the Village of Oak Park and all of the requirements of Oak Park's Fire and Police life safety codes and recommendations. Moreover, the operations of the development, once occupied, will follow all codes and ordinances of the Village of Oak Park. Now therefore, given the statements above, the Applicant believes that the proposed development will not be materially detrimental to or endanger the public health, safety and welfare of the Village.

Plan Development Standards, continued
Standards for Review Section 14.5 H of the Zoning Ordinance

3. Adequate utilities, road access, parking drainage, police and fire service and other necessary facilities already exist or will be provided to serve the proposed development, including access to fire, sanitation, and maintenance equipment.

The Applicant has submitted a set of documents that include a Site Plan, Landscape Plan, Engineering Utility Plan, Exterior Lighting Plan and Floor Plans as part of this Application. The Developer's Design Team believes that adequate utilities, road access, parking drainage, police and fire service and other necessary facilities already exist at the proposed development site. Please note that the Police Chief and Fire Chief have determined that the development will not have a negative impact on their respective department's ability to serve the property. Additionally, the Village Engineer has determined the development will not have a negative impact on the Village's water and sewer utilities. Further, the developer's Design Team will coordinate any additional modifications as recommended by the Village's Engineering Department so that the final design conforms to recommendations made by these departments as it relates to utilities, road access, parking drainage, police and fire service and other necessary facilities. Now therefore, given the statements above, the Applicant believes that adequate utilities, road access, parking drainage, police and fire service and other necessary facilities already exist at the proposed development site.

4. Adequate ingress and egress to the planned development site already exists or will be provided in a manner that adequately addresses additional traffic congestion in the public streets and promotes a safe and comfortable pedestrian environment.

The Applicant has submitted a set of documents that include a Site Plan, Landscape Plan, Engineering Utility Plan, Exterior Lighting Plan, Floor Plans and Statement of opinion by Gewalt Hamilton Associates as part of this Application. The developer's Design Team and Consultant's believe that adequate ingress and egress to the planned development site already exists given the proposed Site Plan and location of vehicle and pedestrian entrances. Additionally, by removing the two large curb cuts and driveways on Lake Street, the Applicant is improving pedestrian safety and increasing the pedestrian experience along Lake Street. Now therefore, given the statements above, the Applicant believes that adequate ingress and egress to the planned development site already exists or will be provided in a manner that adequately addresses additional traffic congestion in the public streets and promotes a safe and comfortable pedestrian environment.

Plan Development Standards, continued
Standards for Review Section 14.5 H of the Zoning Ordinance

5. The proposed use or combination of uses will not substantially diminish the use or enjoyment of other property in the vicinity for those uses that are permitted in the Zoning Ordinance of the Village.

The Applicant has submitted a set of documents that include a Site Plan, Landscape Plan, Engineering Utility Plan, Exterior Lighting Plan, Floor Plans and Statement of opinion by Gewalt Hamilton Associates as part of this Application. The plans submitted show a development whose use is primarily residential which is allowed in the zone district. Additionally, the Applicant will present expert testimony from a local Realtor as to the expected impacts of developments similar to the one proposed in this Application. Now therefore, given the statements above, the Applicant believes that the proposed use or combination of uses will not substantially diminish the use or enjoyment of other property in the vicinity for those uses that are permitted in the Zoning Ordinance of the Village.

6. The proposed design and use or combination of uses will complement the character of the surrounding neighborhood.

The Applicant has submitted a set of documents that include a rendering of the proposed development, Site Plan, Landscape Plan, Engineering Utility Plan, Exterior Lighting Plan, Floor Plans and Elevations as part of this Application. The Design Team has researched the Lake Street Corridor and nearby significant buildings for use of building materials, design patterns and streetscape designs so as to propose a development that will complement the existing fabric of the Corridor. Now therefore, given the statements above, the Applicant believes that the proposed design and use or combination of uses will complement the character of the surrounding neighborhood.

7. The Applicant has the financial and technical capacity to complete the proposed use or combination of uses.

The Applicant has submitted a set of documents that include a letter from a local Lending Institution that shows that the developer has the financial capacity to complete the proposed development. Additionally, the Developer’s technical experience in developing similar properties is highlighted in the Developer’s Qualifications. Further evidence of the Developer’s technical experience can be found on their website: *www.michicaganavenuerealestategroup.com*

Plan Development Standards, continued
Standards for Review Section 14.5 H of the Zoning Ordinance

8. The proposed development is economically feasible and does not pose a current or potential burden upon the services , tax base, or other economic factors that affect the financial operations of the Village, except to the extent that such burden is balanced by the benefit derived by the Village from the proposed use.

The Applicant has submitted a set of documents that include a letter from a local Lending Institution (See EXHIBIT G) that show that the Developer has the financial capacity to complete the proposed development. Additionally, the Developer's technical experience in successfully managing and maintaining developments of similar scale and complexity in the Chicago metro market is a fact that can be easily established as part of the record throughout the public hearing process and can be viewed on the Developer's website as cited in Response 7. Moreover, the developer has a business track record of maintaining rental properties that are an asset to their local communities and do not pose a current or potential burden upon the services, tax base, or other economic factors that affect the financial operations of the Village, except to the extent that such burden is balanced by the benefit derived by the Village from the proposed use.

Sustainability Standards

As part of this development, pursuant to Section 14.5 D.6, the Applicant will comply with the LEED Rating Standard for this development. Further, the architect selects the firm of EcoAchievers as the LEED Consultant and Insight Property Services as the third-party rater. The target rating for the development is LEED Silver.

Public Art

During the Developer's stakeholder outreach, recommendations for possible arts component for the development were suggested. The Developer, through their Design Team will work with The Oak Park Arts Council and Camille Wilson White in the selection of the appropriate art component and recommend any stakeholder group to submit suggestions directly to the Arts Council. The Architect, Jay Keller, will coordinate the Applicant's efforts to comply with the Public Art component of the development.

VEX WALL SCONCE

TECH LIGHTING

With its unassuming minimalist profile, The Vex outdoor LED wall sconce features up and down lighting and delivers a wide range of optical control and illumination options in a unique and deceptively simple design. Independent, up and down beam angels from 10° - 120° are achieved with simple tool-free adjustment. Beams can be set symmetric or asymmetric in both directions and are lockable. Angle markers ensure consistent and precise aiming and adjustment from fixture to fixture. Vex is ideal for indoor or outdoor accent lighting, ambient and/or way-finding applications where beam angle is critical and/or being used to add dramatic effects.

Key features

- **Tool-free, independent, up/down beam angle adjustment 10° - 120°**
- **Asymmetric or Symmetric Beam Shaping**
- **Lockable**
- **Angle markers for consistent and precise aiming**

SPECIFICATIONS

CONCLUSIONS

The sun study provided reflects conditions in Oak Park, IL at 4 times of year including vernal & autumnal equinox, and winter & summer solstice, in both the morning and afternoon hours. The study conducted has taken into account the effect of Daylight Savings Time (DST). The site is subject to the UTC -5:00 time zone during Central Daylight Time (CDT, March 8th – Oct 31st) and UTC -6:00 time zone during Central Standard Time (CST, November 1st – March 7th).

Based on the study, it is our opinion that the new development's impact on Unity Temple will be negligible. An existing 6-story building to the west of the proposed site is the current cause of all shadows occurring on Unity Temple, including its stained glass windows. As our exhibit shows, the new development's shadows throughout the year will have no impact on the temple windows as proposed, and where additional shadows do occur on Unity Temple, they are limited to the ground plane or solid faces of the building. Based on our model we anticipate the new development will cast additional shadows onto the property of Unity temple for no more than a month, approximately March 8th – April 2nd, and will recede from the property line no later than 9:45 am on those days. This is due to the change from Central Standard Time to Central Daylight Time that occurs on March 8th.

Our building will have some impact on the park to the north. From March 8th – October 5th, no shadows occur on the park property. October 5th – November 1st some shadows occur from 4pm on, in the southern half of the park. The new development will cast the most significant shadows into the park from November 1st – February 15th, from the hours of 3pm to sunset. This is due to the change from Central Daylight Time to Central Standard time, as well as the lower sun during the winter months. It is our opinion that this shadowing will have little impact on the usability of the park. During the spring & summer months the park is unaffected, and the range of highest impact occurs in the cold fall and winter months, when the park is less likely to be occupied, and especially not in the evening hours due to dropping temperatures and early sunsets.

10.13.20

835 LAKE ST. PLACE
835 W LAKE ST. OAK PARK, IL
MICHIGAN AVE. R.E. GROUP

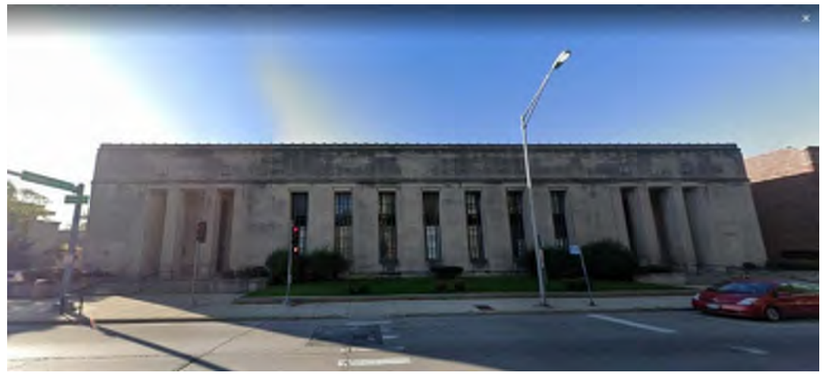
1. LOOKING NORTH TO 950 LAKE STREET

950 Lake Street is a 20 story building that demonstrates that taller structures exists within the zone of influence. It also reflects contemporary style similar to 835 Lake Street.

2. GRACE EPISCOPAL CHURCH (924 LAKE STREET)

Grace Episcopal Church is a visually distinct building from 835 Lake. 835 Lake respects the historic character of this building through visual differentiation and also provides a significant front yard setback similar to the church.



3. LOOKING SOUTH TO U.S. POST OFFICE BUILDING (901 LAKE STREET)

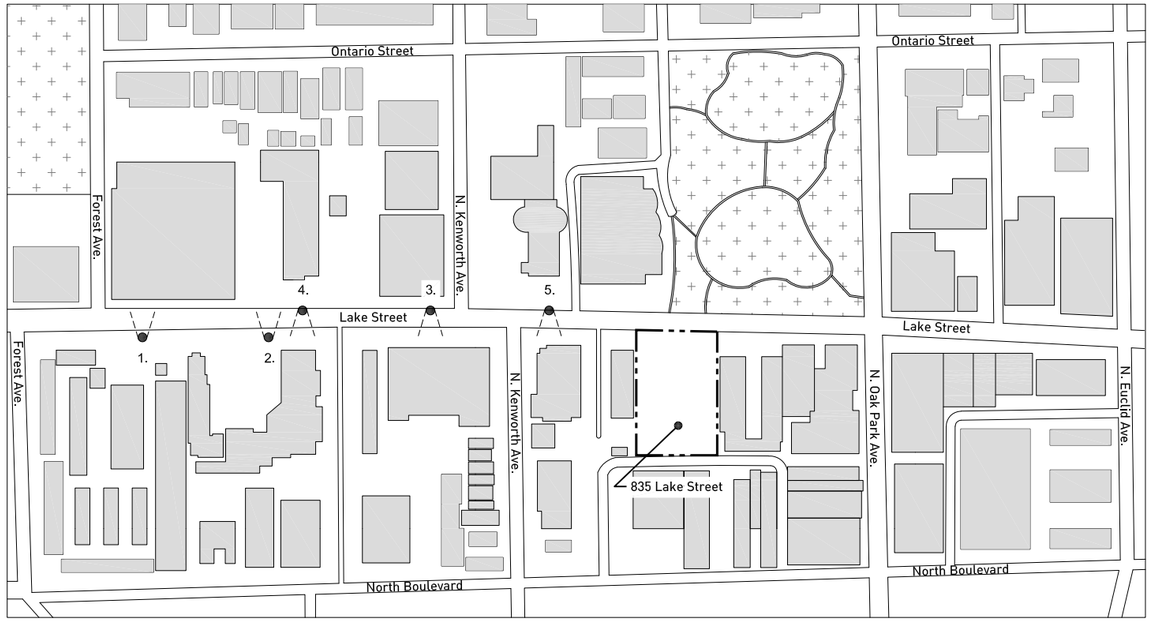
The USPS building is visually distinct from the proposed 835 Lake building which minimizes its impact on this historic structure.

4. CAVALRY MEMORIAL CHURCH (931 LAKE STREET)

Cavalry Memorial Church is visually distinct from the proposed 835 Lake building while sharing a similar front yard setback. The differentiation in style aids in not influencing the historic character of this building.

5. LOOKING SOUTH TO UNITY TEMPLE

835 Lake Street does not impose on the style, size and scale of Unity Temple, and further seeks to respect the character of this iconic building through horizontal emphasis and the incorporation of pilasters at the ground level.



KEY PLAN

1 LANDMARK DISTRICT EXHIBIT

SCALE: N.T.S.

SPACE ARCHITECTS + PLANNERS

A3.8

10.13.20

835 LAKE ST. PLACE
835 W LAKE ST. OAK PARK, IL
MICHIGAN AVE. R.E. GROUP

1. LOOKING SOUTH TO 853 LAKE STREET

853 Lake Street is a 6 story building directly adjacent to the proposed 835 Lake Street building. It is visually distinct, while also compatible through similar size, scale and set back.

2. LOOKING SOUTH TO 815 LAKE STREET

815 Lake Street is visually distinct through materiality and style, with a front yard setback similar to the proposed 835 Lake building. From the street, the 835 Lake building will appear to be 1 1/2 stories taller, respecting the scale of 815 Lake Street.

3. LOOKING SOUTH TO 800 LAKE STREET

800 Lake Street and the proposed 835 Lake building share a similar articulation of their facades through the use of pilasters along with a strong horizontal emphasis.

CONCLUSIONS

1. The proposed 835 Lake showcases compatibility through similarities in size, scale, set-back, massing, material and character of buildings with existing structures within our prescribed zone of influence (two blocks on each side of the same street as proposed, and three blocks across the street from proposed).

2. Through a differentiation of materiality and style, the new building does not change the historical character of buildings in the zone of influence.

3. The proposed building has the same front entrance facing the same direction as structures on the same block and adjacent blocks in the zone of influence.

4. Stylistic and proportional similarities showcase the compatibility of the proposed 835 Lake building to structures within the zone of influence while remaining visual distinct from the historic structures in this area.

4. LOOKING SOUTH TO 715 LAKE STREET

715 Lake Street is an 8 story building which is similar to size and scale of 835 Lake Street, distinct with its larger height.

5. LOOKING NORTH TO 702 LAKE STREET

This 5 story building shares similarities with the proposed 835 Lake Street through compatible use of material (glass) and a strong horizontal emphasis, which serves as a subtle contemporary nod to Unity Temple.

PLANTING NOTES

1. LANDSCAPING CONTRACTOR (Contractor) shall visit the site, inspect existing conditions and review proposed planting and related work. In case of discrepancy between plan and plant list, plan shall govern quantities.

2. Contractor shall verify location of all on-site utilities prior to beginning construction on his phase of work. Electric, gas, telephone, and cable television may be located by calling J.U.L.I.E. at (1-800-892-0123), and Badger pipeline may be located by calling Digger's Hotline at (1-800-242-8511). Any damage or interuption of services shall be the responsibility of the Contractor. Contractor shall coordinate all related activities with other trades on the job and shall report any unacceptable job conditions to Owners Representative prior to commencing work.

3. Contractor responsible for application and cost of all necssary building permits and code verifications. Submit copies of all documents to Owner and the Architect.

4. All shrub bed and trees shall be mulched with a 3" continuous layer of shredded bark. All ground cover and perennial beds shall be mulched with a 1" layer of shredded bark. All deciduous trees shall be mulched with a 3 ft. diameter circle mulch. All evergren trees shall be mulched to the drip line.

5. Perennial and ground cover beds shall be amended with a 2" layer of mushroom compost, tilled to a depth of 6". raked smooth, fertilized with commercial 10-6-4 fertilizer at a rate of 25 lbs. per 1000 S.F. planted, covered with 1" layer of shredded bark mulch and watered.

6. Edging to be EDG-KING brand plastic edging or approved equal. EDG-KING to be installed with horizontal steel stakes at 36" spacing. Install per manufacturer's specifications in all areas indicated on plan. Provide manufactured joints and 90° degree fittings at all corners.

7. The topsoil condition for this project site is as follows:

   Contractor will be required to place and finish grade topsoil supplied by others at specified depths in planting and lawn areas. (Planting areas [12 inches], Lawn areas [6 inches]).

8. Guarantee of plants for one (1) year shall begin after acceptance by the Architect and /or Owner. The Owner shall assume maintenance responsibilities of all plant material, including watering, cultivating, weeding, mulching, and spraying as necessary to keep plants free of insects and in a healthy, vigorous condition. The Contractor shall guarantee all plants to be in a healthy, vigorous condition for a period of one (1) year following acceptance. Contractor shall replace without cost to the Owner, any dead or unacceptable plants, as determined by the Architect during and at the end of the Guaranteed Period. Subsequent replacment of plant material shall be borne jointly by Contractor and Owner. Owner will pay wholesale cost of plant material, plus reasonable charge for delivery, and Contractor will bear cost of labor for installation per specifications.

9. Seeded lawn to be a combination of bluegrass, perennial rye and rye fescue with following analysis by wieght: 30% Rugby Kentucky Bluegrass, 20% Park Kentucky Bluegrass, 20% Creeping Red Fescue, 20% Scaldis Hard Fescue, 10% perennial Ryegrass. Seed to be applied at a rate of 4 lbs per 1,000 S.F.. All seeded lawn areas shall be fertilized at installation with 0-26-26 analysis, at a rate of 6 lbs per 1,000 S.F.. Second application of 15-40-5 to be applied at a rate of 6 lbs per 1,000 S.F. after first cutting. Acceptance and guarantee notes shall apply to all seeded areas.

10. Acceptance of grading and seeding shall be by the Architect and Owner. The Contractor shall assume maintenance responsibilities for a minimum of sixty (60) days or until second cutting, whichever is longer. Maintenance shall include watering, weeding, reseeding and other operations necessary to keep lawn in thriving condition. Upon final acceptance by the Architect and/or Owner, Owner shall assume all maintenance responsibilities. After lawn areas have germinated, areas which fail to show uniform stand of grass for any reason whatsoever shall be reseeded reapetedly until all areas are coverd with a satisfactory stand of grass. Minimum acceptance of seeded lawn areas may include scattered bare spots, one of which are larger than 1 square foot and when combined do not exceed 2% of total seeded lawn area.

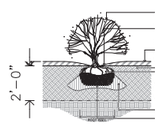
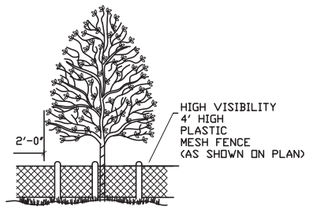
SECTION - SHRUB INSTALLATION DETAIL

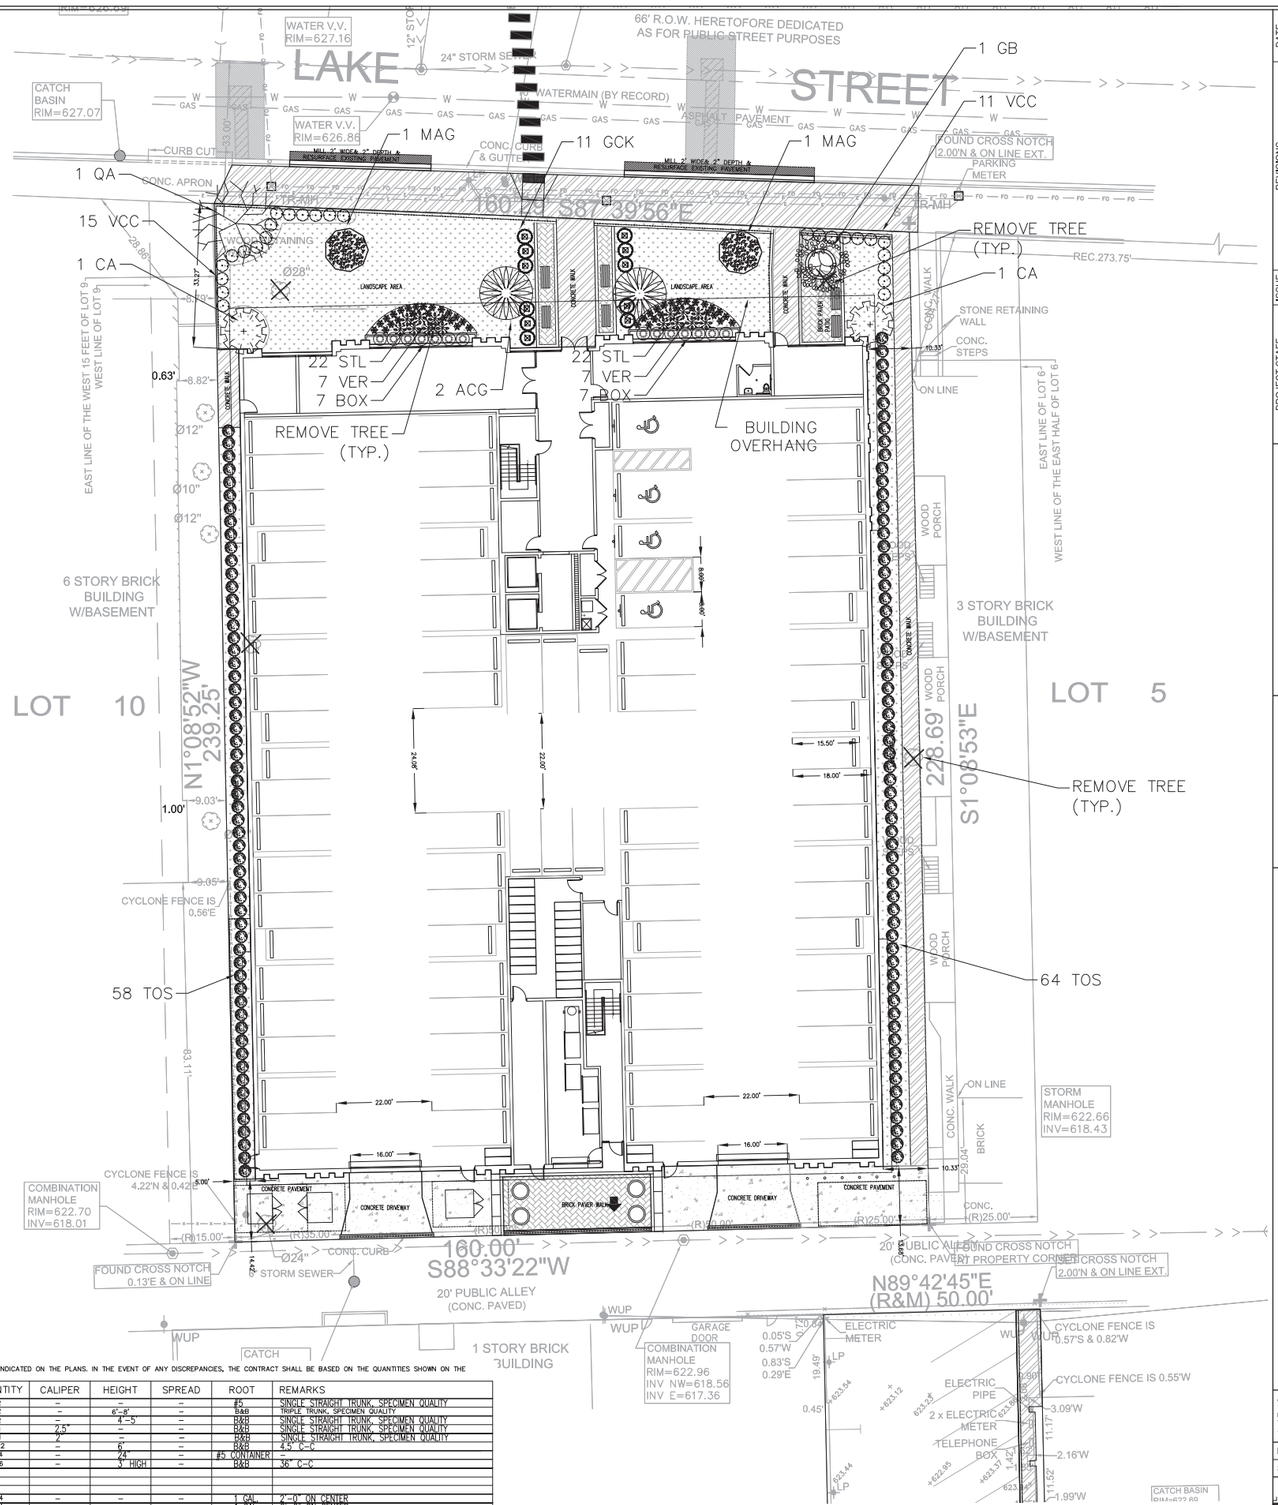




TREE PROTECTION DURING CONSTRUCTION
SCALE: N.T.S.

VILLAGE NOTES

- ALL TREE TRIMMING OF PARKWAY TREES SHALL BE DONE BY A CONTRACTOR APPROVED BY THE VILLAGE AND THE VILLAGE SHALL BE ON-SITE DURING TREE TRIMMING WORK
- THE DEVELOPER BE REQUIRED PROVIDE A DEPOSIT (ESCROW, BOND, ETC.) FOR $25,000 (THE APPROXIMATE VALUE OF THE PARKWAY TREES AS DETERMINED BY THE VILLAGE FORESTER). THE DEPOSIT WILL BE REQUIRED PRIOR TO ISSUING BUILDING PERMITS AND EXTEND FOR A PERIOD OF UP TO ONE YEAR FROM FINAL OCCUPANCY PERMITS BEING ISSUED. SHOULD TREE PRUNING WORK OR CONSTRUCTION OF THE PROPOSED DEVELOPMENT DAMAGE OR OTHERWISE NECESSITATE THE REMOVAL OF ANY OF THE VILLAGE'S PARKWAY TREES ALONG THE DEVELOPMENT'S FRONTAGES OF MADISON OR GUNDERSON AS DETERMINED BY THE VILLAGE FORESTER, THE VILLAGE MAY USE THE DEPOSIT FUNDS TO REMOVE, PRUNE, AND/OR REPLACE TREES IN THE RIGHT OF WAY ADJACENT TO THE DEVELOPMENT.



PLANT LIST

NOTE: QUANTITIES ON THE PLANT LIST ARE PROVIDED FOR INFORMATION ONLY. PLANT QUANTITIES UNDER THE CONTRACT ARE INDICATED ON THE PLANS. IN THE EVENT OF ANY DISCREPANCIES, THE CONTRACT SHALL BE BASED ON THE QUANTITIES SHOWN ON THE PLANS.

DRAWING INDEX:

PROJECT NARRATIVE

GENERAL: PROPOSED RESIDENTIAL BUILDING WITH PARKING LOT ON GROUND FLOOR IS PROPOSED ON A 0.859 AC. PARCEL.

AREA SUMMARY:
TOTAL AREA OF SITE: 0.859 ACRES + 0.230 ACRES = 1.089 ACRES
DISTURBED AREA OF SITE: 0.859 ACRES + 0.018 ACRES = 0.877 ACRES

SPECIAL PROTECTION AREAS: NO FLOODPLAIN WITHIN 100' OF SITE. THERE ARE NO WETLANDS WITHIN 100' OF SITE.

UPSTREAM TRIBUTARY: THERE IS NO UPSTREAM TRIBUTARY AREA FOR THE SITE.

COMBINED/SEPARATE SEWER AREA INFO: PROPOSED PROJECT IS LOCATED IN A COMBINED SEWER AREA.

DETENTION/VOLUME CONTROL FACILITY: DETENTION (SITE AREA<3AC.) IS NOT REQUIREMENT PER MWRD AND VOLUME CONTROL (SITE AREA>0.5AC.) IS REQUIRED PER MWRD REGULATIONS.

SANITARY SEWERS: TWO SERVICES 6" SANITARY SERVICE & 8" STORM SEWER FROM THE BUILDING ARE PROPOSED TO CONNECT TO A NEW 8" COMBINED SEWER AND CONNECT TO THE EXISTING COMBINED SEWER MAIN.

SOILS/INFILTRATION RATE: N/A.

GROUNDWATER ELEVATION: N/A.

COMBINED SEWER ROUTE MAP

1. I HEREBY CERTIFY THAT THE PROPOSED IMPROVEMENTS WILL NOT ADVERSELY IMPACT THE SUBJECT PROPERTY, THE SURROUNDING PROPERTIES OR THE PUBLIC RIGHT–OF–WAY WITH RESPECT TO STORMWATER DRAINAGE, AND THAT A SAFE OVERFLOW ROUTE HAS BEEN ESTABLISHED.
2. I HEREBY CERTIFY TO THE BEST OF MY KNOWLEDGE THAT THE PROPOSED IMPROVEMENT IS NOT LOCATED IN FLOOD PROTECTION AREAS BASED ON THE INFORMATION FROM THE FEMA MAPS.

ENGINEER DATE

NOTE

The location of existing underground utilities, such as water mains, sewers, gas lines, etc., as shown on the plans, has been determined from the best available information and is given for the convenience of the Contractor. However, the Owner and the Engineer do not assume responsibility in the event that during construction, utilities other than those shown may be encountered, and that the actual location of those which are shown may be different from the location as shown on the plans.

Bono Consulting, Inc. is not responsible for the safety of any party at or on the construction site. Safety is the sole responsibility of the contractor and any other person or entity performing work or services. Neither the owner nor engineer assumes any responsibility for the job site safety of persons engaged in the work or the means or methods of construction.

Current Standard Specifications of the Judicial Authority shall apply to the construction on this project.

Note: The exact location of all utilities shall be verified by the contractor prior to construction activities. For utility locations call:
J.U.L.I.E. 1 (800) 892–0123

NOTES TO CONTRACTOR

- ALL TRENCHES OR OTHER EXCAVATIONS IN ANY PARKWAY SHALL BE REFILLED AND THE SOD REMOVED IN MAKING SUCH TRENCHES AND EXCAVATIONS SHALL BE REPLACED OR, AFTER REFILLING THE SAME, THE SURFACE SHALL BE SOWED WITH GRASS SEED OR RE–SODDED AS DETERMINED BY THE DIRECTOR OF PUBLIC WORKS AND SHALL BE CARED FOR UNTIL THE SAME IS RESTORED TO AS GOOD CONDITION IN EVERY WAY AS BEFORE THE EXCAVATIONS WERE MADE
- IT SHALL BE THE DUTY OF EVERY PERSON ENGAGED IN DIGGING INTO ANY STREET, IN PAVING ANY STREET, BUILDING ANY SEWER OR DRAIN OR TRENCH FOR WATER PIPES IN ANY OF THE PUBLIC STREETS OR AVENUES UNDER CONTRACT WITH THE VILLAGE, OR BY VIRTUE OF ANY PERMISSION WHICH MAY HAVE BEEN GRANTED TO THEM BY THE BOARD OF TRUSTEES, OR ANY VILLAGE DEPARTMENT, WHERE SUCH WORK, IF LEFT EXPOSED, WOULD BE DANGEROUS, TO ERECT A FENCE, RAILING OR BARRICADE, AND TO PLACE A SUITABLE COVERING WHERE NECESSARY AS DETERMINED BY THE DIRECTOR OF PUBLIC WORKS, AROUND SUCH EXCAVATIONS OR WORK IN SUCH A MANNER AS TO PREVENT DANGER TO PERSONS WHO MAY BE TRAVELING SUCH STREETS, ROADS OR AVENUES AND TO CONTINUE AND UPHOLD SUCH FENCE, RAILING OR BARRICADE UNTIL THE WORK SHALL BE COMPLETED OR THE OBSTRUCTION OR DANGER REMOVED. IT SHALL ALSO BE THE DUTY OF SUCH PERSONS TO PLACE UPON SUCH FENCE, RAILING OR BARRICADE AT TWILIGHT IN THE EVENING SUITABLE AND SUFFICIENT WARNING LIGHTS AND KEEP THEM BURNING THROUGH THE NIGHT DURING THE PERFORMANCE OF SUCH WORK, UNDER THE PENALTY AS PROVIDED IN SECTION 1–1–5 OF THE CODE FOR EVERY NEGLECT. FLARES, LANTERNS, "BOMBS" OR OTHER DEVICES USING A FLAME SHALL NOT BE PERMITTED AS SUITABLE LIGHTS

NOTES ON LANE CLOSURE & WORK WITHIN RIGHT–OF–WAY

- ALL LANE CLOSURE AND WORK WITHIN GUNDERSON AVE. TO FOLLOW IDOT AND MUTCD TRAFFIC CONTROL REQUIREMENTS.
- CONSTRUCTION ACTIVITY TO BE BETWEEN 7 AM TO 6 PM.
- GUNDERSON AVE. TO BE OPENED COMPLETELY TO TRAFFIC AFTER WORK HOURS. USE STEEL PLATES AND ASPHALT COLD PATCHING OVER TRENCHES FOR ANY WORK THAT NEEDS TO BE CONTINUED TO THE NEXT DAY.

VOLUME CONTROL SUMMARY (MWRD REQUIREMENTS – IN PIPES & STONE VOIDS)

TOTAL VOLUME CONTROL REQUIRED = 2,812 CU. FT.

VOLUME IN PIPES	= 1,281 CU. FT.
VOLUME IN STONE VOIDS	= 1,699 CU. FT.
TOTAL DETENTION PROVIDED	= 2,980 CU. FT.

PROPOSED UTILITY PLAN
OVERALL SITE
NEW MULTI-FAMILY RESIDENTIAL DEVELOPMENT
835 LAKE ST. & 822 NORTH BLVD., OAK PARK, ILLINOIS

NOT FOR CONSTRUCTION

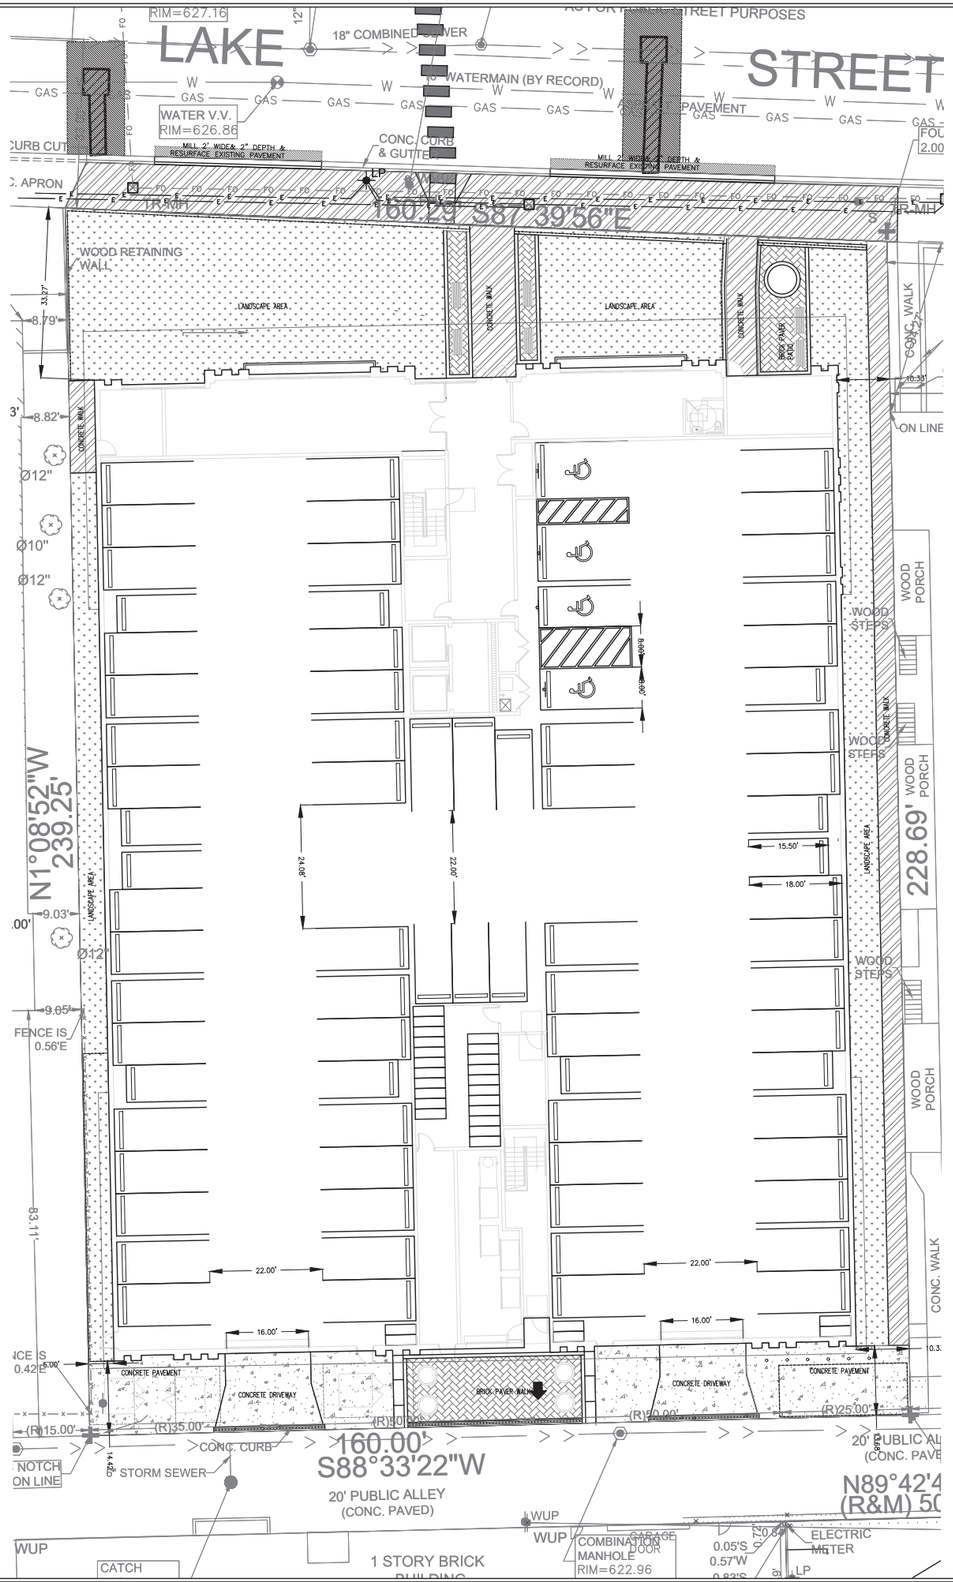
PROJECT NUMBER: 20208

START DATE: JUNE 18, 2020

GRAPHIC SCALE
20 0 20

SCALE: 1"=20'-0"

SHEET NUMBER
4 OF 7



SITE PLAN NOTES:

A. ALL WORK AND MATERIALS SHALL COMPLY WITH ALL CITY /COUNTY REGULATIONS AND CODES AND O.S.H.A. STANDARDS.
B. ALL DISTURBED AREAS ARE TO RECEIVE FOUR INCHES OF TOPSOIL, SEED, MULCH AND WATER UNTIL HEALTHY STAND OF GRASS IS ESTABLISHED UNLESS OTHERWISE NOTED.
C. ALL CURBED RADII ARE TO BE 3' MEASURED TO FACE OF CURB UNLESS OTHERWISE NOTED. STRIPED RADII ARE TO BE 5' UNLESS OTHERWISE NOTED.
D. ALL DIMENSIONS ARE FACE OF CURB TO FACE OF CURB AND RADII ARE BACK OF CURB OR BUILDING FOUNDATION UNLESS OTHERWISE NOTED.
E. BUILDING DIMENSIONS AND ADJACENT PARKING AND UTILITY LAYOUT HAVE BEEN PREPARED BASED UPON ARCHITECTURAL INFORMATION CURRENT AT THE DATE OF THIS DRAWING. SUBSEQUENT ARCHITECTURAL CHANGES MAY EXIST, THEREFORE CONTRACTOR SHALL REFER TO ARCHITECTURAL PLANS FOR PRECISE BUILDING DIMENSIONS AND EXACT UTILITY ENTRANCE LOCATIONS AND NOTIFY THE ARCHITECT AND ENGINEER OF ANY DISCREPANCIES PRIOR TO CONSTRUCTION.
F. ALL PROPOSED CURB AND GUTTER SHALL BE B6.12 UNLESS OTHERWISE NOTED.
G. EXISTING TOPOGRAPHY SHOWN REPRESENTS SITE CONDITION AS PREPARED BY UNITED SURVEY SERVICE, LLC. CONTRACTOR SHALL FIELD CHECK EXISTING ELEVATIONS AND CONDITIONS PRIOR TO CONSTRUCTION AND NOTIFY ARCHITECT AND ENGINEER OF ANY DISCREPANCIES PRIOR TO STARTING CONSTRUCTION.
H. THE CONTRACTOR SHALL CONTACT J.U.L.I.E. (1-800-892-0123) PRIOR TO ANY WORK TO LOCATE UTILITIES AND SHALL CONTACT THE OWNER SHOULD UTILITIES APPEAR TO BE IN CONFLICT WITH THE PROPOSED IMPROVEMENT.
I. EXISTING STRUCTURES WITHIN CONSTRUCTION LIMITS ARE TO BE REMOVED UNDER PROPOSED BUILDINGS AND ABANDONED ELSEWHERE AS NECESSARY. ALL COST SHALL BE INCLUDED IN BASE BID.
J. CONTRACTOR SHALL BE RESPONSIBLE FOR ALL RELOCATIONS, (UNLESS OTHERWISE NOTED ON PLANS) INCLUDING BUT NOT LIMITED TO, ALL UTILITIES, STORM DRAINAGE, SIGNS, TRAFFIC SIGNALS AND POLES, ETC. AS REQUIRED. ALL WORK SHALL BE IN ACCORDANCE WITH GOVERNING AUTHORITIES REQUIREMENTS AND PROJECT SITEWORK SPECIFICATIONS AND SHALL BE APPROVED BY SUCH. ALL COST SHALL BE INCLUDED IN BASE BID.
K. SITE BOUNDARY, TOPOGRAPHY, UTILITY AND ROAD INFORMATION TAKEN FROM A SURVEY BY OTHERS.
L. IMPROVEMENTS ADJACENT TO BUILDING IF SHOWN SUCH AS TRUCK DOCK, RETAINING WALLS, SIDEWALKS, CURBING, CANOPIES, RAMPS, HANDICAP ACCESS, PLANTERS, DUMPSTERS AND TRANSFORMERS ETC. HAVE BEEN SHOWN FOR APPROXIMATE LOCATION ONLY. CONTRACTOR SHALL REFER TO THE ARCHITECTURAL PLANS FOR EXACT LOCATIONS AND DIMENSIONS OF VESTIBULES, SLOPE PAVING, SIDEWALKS, EXIT PORCHES, TRUCK DOCKS, PRECISE BUILDING DIMENSIONS AND EXACT BUILDING UTILITY ENTRANCE LOCATIONS.
M. THE CONTRACTOR SHALL ADJUST RIM ELEVATIONS OF ALL EXISTING STRUCTURES TO PROPOSED GRADES AS INDICATED ON PLANS.
N. CONTRACTOR TO VERIFY LOCATION, SIZES, AND ELEVATIONS OF ALL BUILDING SERVICE LOCATIONS WITH ARCHITECTURAL PLANS.
O. TOTAL LAND AREA IS 1.089+/- ACRES, DISTURBED AREA IS 0.877+/-.
P. NO WETLANDS WERE PRESENT ON THIS SITE.
Q. THE SITE WORK FOR THIS PROJECT SHALL MEET OR EXCEED THE "SITE SPECIFIC SPECIFICATIONS."
R. MONUMENT AND/OR PYLON SIGNS SHALL BE CONSTRUCTED BY OWNER ASSIGNED CONTRACTOR.
S. ALL GENERAL CONTRACTOR WORK TO BE COMPLETED (EARTHWORK, FINAL UTILITIES, AND FINAL GRADING) BY THE MILESTONE DATE IN PROJECT DOCUMENTS.
T. ALL ROADWAY AND PARKING LOT IMPROVEMENTS SHALL BE COMPLETED IN ACCORDANCE WITH THE APPLICABLE SECTIONS OF THE STANDARD SPECIFICATIONS FOR ROAD AND BRIDGE CONSTRUCTION, DEPARTMENT OF TRANSPORTATION, STATE OF ILLINOIS, LATEST EDITION.
U. ROUTING OF GAS, ELECTRIC AND TELEPHONE SERVICES IF SHOWN ARE APPROXIMATE ONLY AND SUBJECT TO CHANGE BASED UPON FINAL REVIEW AND APPROVAL BY RESPECTIVE UTILITY COMPANIES AND OWNER. CONTRACTOR SHALL CONTACT EACH UTILITY COMPANY AND COORDINATE FINAL LOCATIONS FOR ALL UTILITY SERVICES PRIOR TO START OF CONSTRUCTION.
V. CONTRACTOR SHALL ADJUST AND/OR CUT EXISTING PAVEMENT AS NECESSARY TO ASSURE A SMOOTH FIT AND CONTINUOUS GRADE
W. ALL SIDEWALK CROSS-SLOPES SHALL BE 1% UNLESS OTHERWISE NOTED.

SHEET NUMBER 5 OF 7

PD Application
Item 9
Inclusionary Housing Plan

The Developer's Plan is to be in full compliance with Oak Park's Inclusionary Housing Ordinance as found in Article 5 of the Village's Zoning Ordinance.

As such, the Developer provides the following outline of the Development as required by Section 12-5-4

A. General description: the development The proposed development consists of the construction of a five-story building with eighty-four (84) units and eighty-eight (88) parking spaces – 78 inside of the building and 10 parking spaces on a remote lot owned by the developer. The ground floor consists of the residential lobby, residential fitness center, building management office, elevator, surface parking, waste and recycling center, bicycle storage, mechanical and one commercial space. The upper floors consist of one, two, and three-bedroom units – 18 units per floor on floors 2-5 and 12 units on the 6th floor.
B. The total number of market rate units is 84. The Developer has elected, pursuant to Section 12-5-7, to make a payment in lieu of providing affordable dwelling units.
C. The development has 8 one-bedroom units and 74 two-bedroom units and 2 – 3-bedroom units.
D. The square footage for a one-bedroom unit is 729-778 SF ; The square footage for a two-bedroom unit is 1,112-1,322 SF; The square footage for a three-bedroom unit is 1,429-1,472 SF
E. Since the Developer has elected not to provide affordable units on site, this metric is not applicable.
F. Since the Developer has elected not to provide affordable units on site, this metric is not applicable.
G. Since the Developer has elected not to provide affordable units on site, this metric is not applicable.
H. The Developer has elected to provide a payment in lieu of providing affordable units on site pursuant to Section 12-5-7. The Developer shall, in accordance with Oak Park's Inclusionary Housing Ordinance, deposit $900,000 into the Housing Fund

PD Application
Item 10
Model

Since this development is in the Downtown Business district, the Applicant will commission a contractor to construct a scale model of the proposed development using cherry wood at the proscribed scale of 1”= 60’ The model shall be delivered to the Village Planner, Mr. Craig Failor, no later than 30 days after final PD approval.

PD Application
Item 11
RESPONSIBILITY TO RECORD

The Applicant hereby commits to record a certified copy of the Planned Development Ordinance with the Cook County Recorder of Deeds within 30 days of passage of the ordinance by the Village Board.

PD Application
Item 12
PROPERTY OWNER NOTICES

A list of property owners within 300 feet of the development site was prepared by Real Info, Inc. A copy of this list is included in this Application.

See Exhibit M

The property owners within 300 feet of the development site were notified via first class mail on Wednesday, August 12, 2020 of the scheduled Neighborhood Meeting which was conducted via ZOOM on Wednesday, August 26th, 2020 at 5:30 PM

See Exhibit P for Meeting attendance and comments

The property owners within 300 feet of the development site were notified via first class mail on Friday, October 9, 2020 of the scheduled Plan Commission Hearing which will be held on Tuesday, October 27, 2020 at 7:00 PM

ZONING ANALYSIS

Prepared by: Jay Keller date: 09.24.2020

A. Description:

Project Name: Lake St. Place
Location: 835 Lake St. – Oak Park, IL

- Current Building/Property Use(s): 1 Story Commercial building and Parking Lot
- Allowed Building/Property Use(s): Residential Multi Unit Building
- Site Area: 37,435 sf
- Lot Depth: Varies – 229' to 239'
- Lot Width: +/- 160'

B. Zoning Requirements:

- District: R-7 – Multi Family, **Ridgeland Historic District**
- TOD (yes/no): No – Only Applies to Commercial properties
- Floor area ratio: N/A – based on height and setbacks
- Maximum building coverage: 70% of Lot - **Zoning Relief required, 75% Proposed**
- Maximum Impervious surface: 80% of Lot - 80% Proposed
- Min. commercial space area: Limited Non-Residential compatible uses only
- Lot Area per unit: 2 units for first 5,000 sf then 700 sf / unit
- Maximum number of units: 46 – **Zoning Relief required, 84 Proposed**
- Maximum Building Height: 45'– **Zoning Relief required, +/-74'-0" Proposed**
- Front Yard Setback: 19'-10 1/2"
- East Side Yard Setback: 10'-0" – 10'-0" Proposed
- West Side Yard Setback: 10'-0" – **Zoning Relief required, 5'-0" Proposed**
- Rear Yard Setback: 25'-0" - **Zoning Relief required +/- 14'-0" Proposed**
- Off Street Loading: 1 berth at 10' x 25' required
- Off Street Parking: 1 per DU + (4) Accessible – located at rear of bldg.
  1 per 500 gsf Comm.
  (10) spots located offsite
  - Compact space – 7.25' x 15.5' w/ 19' aisle – **20% Allowed**
  - Regular space – 8.25' x 18.0' w/ 22' aisle
- Bicycle Parking: 1 per 4 DU's – 2' x 6'
- Non-Conforming Property (yes/no): **YES**
  - Zoning Relief required – **Req'd for Density, Coverage, Height and yards, Allowance for Indoor ATM in Res. District**
  - Recommended path - **Planned Development**

GOOD ARCHITECTURE EVOLVES THROUGH HUMBLE, TEAM-BASED EFFORTS.

ABOUT US

SPACE Architects + Planners is a collective of design professionals with a common vision and a passion for architecture, planning and design. Our growing team is firmly dedicated to its clients, for projects both large and small. We enjoy successful working relationships with all of our clients, and are determined to establish SPACE Architects + Planners as one of the premier architectural firms in Chicago.

We believe good architecture evolves through humble, team-based efforts. Our office thrives in an open and collaborative atmosphere, which favors cohesiveness between team members and, as a result, directly benefits our projects and clients.

BONO CONSULTING, INC.

Civil Engineers Specializing in Site Development

bbono@bonoconsulting.com

Bono Consulting Civil Engineers provides site engineering, topographic surveys and permitting for building & land development projects.

- ***Commercial:*** Car Washes, Restaurants, Storage Buildings, Child Care Facilities, Hotels, Retirement Communities, Parking Lots
  Clients: Cinespace Film Studios, Lou Malnati's, Dunkin, Jet Brite 40+ Carwashes, 30+ Self-Storage Facilities, 150+ Restaurants
- ***Residential:*** Apartment Buildings, Townhouses, Subdivisions, Single Family Homes, Pools, Drainage Improvements
  Clients: Morgante Wilson, Antunovich, Sullivan Goulette, Space, Hanna 300+ Apartment Buildings, 35+ Townhouses, 3500+ Houses

- ***Industrial:*** Warehouses, Truck Docks, Freight Terminals, Truck Storage; Concrete Plants
  Clients: Ozinga Ready Mix, Amerifreight Systems, Delta Freight Systems
- ***Parks, Schools, & Places of Worship:*** Golf Courses, Sport Fields, & ADA Improvements; New Schools and Additions; New Places of Worship, Additions, Parking Lot Expansions
  Clients: Niles, Park Ridge & Morton Grove Park Districts; Carpenter Elementary School, Cement Mason's Training Facility, Carpenter's Training Facility; Churches, Mosques, Temples and Synagogues
- ***Municipal:*** Water, Sanitary and Storm Mains; Alleys, Roads, Sidewalks, Cul-de-sacs, Construction Observation
  Clients: Village of Glenview, Village of Glencoe, City of Chicago (Cinespace Campus); Wilmette Library

Direct Access
- *BCI Principals and Project Managers easily accessible to discuss project details.*

Development Plan Feasibility
- *Assess regulatory requirements and cost implications **before** the property is purchased.*
- *Review cost implications of site characteristics such as topography, floodplain, adjacent properties, etc.*

Quick Turnaround
- *Prepare Plan Sets quickly after site plan is finalized.*
- *Address Agency comments and resubmit promptly.*

Coordination
- *Coordinate plans with design team to minimize construction conflicts and costs.*
- *Follow up with agencies to expedite the permit process.*

SUMMARY

We have helped clients navigate the site development process since 1997 and have successfully completed over 7,500 projects. We have significant experience with flood plain development. We have extensive experience with Chicago, Suburban Municipalities, MWRD, IEPA, DuPage, Kane and Lake County permitting agencies and we have also completed numerous projects in downstate Illinois, Indiana, Wisconsin and Iowa.

WORK HISTORY:

BONO CONSULTING CIVIL ENGINEERS

(1997 to Present)
President/Senior Project Manager

Bono Consulting has successfully completed over 7,500 civil projects for land development and residential clients; including over 425 developments in the City of Chicago. Bono Consulting specializes in commercial developments including office, mixed use, retail, restaurants, and industrial. We are very experienced with regulated sites requiring storm water detention and storm water infiltration, OUC permitting, and sunken driveway permitting. Significant experience with development of projects in or adjacent to flood plain.

Mr. Bono has extensive project management and safety training and oversees all the construction services projects in the office.

FLUOR DANIEL

(1990 to 1997)
Senior Project Manager in Environmental Services Group.

Responsible for business development, project management and civil engineering design. Designed landfill caps for 102nd Street CERCLA Site in New York, and 9th Avenue Dump in Gary, Indiana. Project manager for numerous CERCLA Site remediations and UST removal projects.

DONOHUE AND ASSOCIATES (1987-90)

Performed Project Management, Construction Supervision, and Design Engineering for numerous landfill, CERCLA and RCRA projects:

MCDONOUGH AND ASSOCIATES (1984-87)

Performed land surveying and construction inspection for highway projects. Designed grading for new I-355 tollway at the intersection with I-88. Inspector on the I-290 reconstruction project.

EXHIBIT F

GEWALT HAMILTON ASSOCIATES, INC. is a multidisciplinary civil engineering and surveying firm. Founded in 1981 in a small home office, the firm began with two engineers – Dave Gewalt and Bob Hamilton – driven to deliver service that exceeded clients' expectations. Through decades of diversification and growth, we have continuously provided an increasing array of professional services to municipalities, educational institutions, recreation districts, transportation agencies, healthcare institutions, and commercial developers. Today, Gewalt Hamilton is a multi-disciplinary organization providing comprehensive services in the fields of Civil Engineering, Land Surveying, Construction Engineering, Traffic Engineering and Transportation Planning, Traffic Data Collection, and Environmental Consulting.

TRANSPORTATION

At Gewalt Hamilton, we understand the inseparable link between transportation and land use. No matter the project – a site, corridor, community or region – we will plan and design a livable, buildable and cost-conscious transportation system that considers all modes of travel, as well as the physical and aesthetic impacts of the surrounding environment. Our years of experience working with public agencies and reviewing plans on their behalf, gives us an unparalleled perspective to the services we provide our clients.

Our firm is pre-qualified with IDOT in the following categories:

- Highways – Roads & Streets
- Hydraulic Reports – Waterways Complex
- Hydraulic Reports – Waterways Typical
- Location Design Studies – Reconstruction/Major Rehabilitation
- Location Design Studies – Rehabilitation
- Special Services – Electrical Engineering
- Special Services – Construction Inspection
- Special Services – Sanitary
- Special Services – Surveying
- Special Studies – Feasibility
- Special Studies – Location Drainage
- Special Studies – Safety
- Special Studies – Signal Coordination & Timing (SCAT)
- Special Studies – Traffic Signals
- Special Studies – Traffic Studies

SURVEY

Gewalt Hamilton offers professional land surveying services to meet the demands of businesses, developers, law firms, architects, engineers and contractors. Our surveying team utilizes state-of-the-art equipment, including Global Positioning Systems (GPS), Robotic Total Stations, and High Definition Scanning (HDS) for the most efficient and cost-effective systems for delivering timely, accurate results. Our computer-aided operators enjoy the benefit of utilizing high performance workstations running a vast array of software packages including the latest version of Autodesk and Microstation products for post process of field data. Gewalt Hamilton is a member of the Illinois Society of Professional Land Surveyors.

We are continuously expanding our surveying operations to include a diverse spectrum of services employing the latest technological advances.

SIGNAL COORDINATION & TIMING

Using system review, optimization, implementation, and field refinement, Gewalt Hamilton performs timely, cost-effective reviews of intersection operations in all traffic signal platforms, helping reduce delays, emissions, and energy costs. We offer monitoring of traffic signal operations and maintenance; temporary and permanent traffic signal coordination, timing, and optimization; transit signal priority; adaptive control strategies, and railroad interconnect studies.

DATA COLLECTION

Gewalt Hamilton provides a wide range of traffic data collection services to clients throughout the United States, including volume and classification counts, turning movement counts, speed and congestion studies, origin-destination and travel time studies, and parking counts. With nearly 20 years of experience collecting traffic and parking data, Gewalt Hamilton has one of the largest inventories of road tubes, plate counters, and video collection units in the country – we have the equipment and trained technical staff to handle any size project, and the processes to complete the work quickly, efficiently and accurately. We have partnered with Miovision Technologies to collect video data, using the most advanced video processing capabilities for quick and accurate counts.

CONSTRUCTION

Our field staff represents clients in dealings with contractors, cooperating governmental agencies, the traveling public and the taxpayer. It is our practice to collaborate with the construction industry to achieve maximum efficiency in producing a quality product. We are devoted to being proactive and keeping an open line of communication with you and the community. Each of our construction staff is equipped with state-of-the-art equipment required for the most efficient and cost-effective systems for delivering timely, budget-sensitive results. Our construction phase services are provided by licensed professional engineers, career-degreed professionals and technicians with a wealth of experience and knowledge in all types of public and private site construction.

Our engineering team works tirelessly on behalf of our clients and is dedicated to careful project management, the latest technological advances and monitoring of the construction process.

SITE DESIGN

Our site design team approaches every site improvement project with the intent that it will serve as an example of stewardship within the community. We take pride in our work and the legacy each project leaves behind.

Our familiarity with the approval process allows us to prepare plans that address regulatory requirements up front and facilitate quick turnaround. While keeping our clients' goals in mind, we work closely with local officials and county, state and federal agencies to ensure compliance with stormwater management, floodplain development, zoning and other applicable regulations.

Projects range from development and implementation of campus- or district-wide improvement programs to building additions, flood reduction and drainage improvements, and new developments for public and private sector clients.

WATER RESOURCES

For nearly every project, the competing concerns of site drainage, offsite impacts and preservation of water quality must all be addressed in compliance with overlapping and sometimes conflicting federal, state and local regulations.

Gewalt Hamilton is thoroughly familiar with the requirements of Chicago-area county and municipal stormwater ordinances, and we regularly prepare documentation and permit submittals to meet these regulatory requirements. Our strategies combine proven stormwater management approaches with innovative naturalized systems to both reduce stormwater runoff volume and enhance downstream water quality.

Our engineering staff combines design expertise with thorough regulatory understanding to provide clients superior water resources solutions.

MUNICIPAL

For more than 30 years, Gewalt Hamilton has partnered with municipalities, county and state agencies, transportation agencies, stormwater commissions, and townships. We are particularly aware of the potentially controversial nature of public projects, planning issues, and the need to maintain a positive relationship with local residents and businesses.

A number of our professionals currently serve as full-time municipal engineers for 13 Chicago-area municipalities and on an as-need basis for more than 40 additional communities. Our wide range of services allows communities access to the resources of a full-service engineering firm without having to fund these services on a full-time basis.

SUSTAINABLE DESIGN

Gewalt Hamilton focuses on designing solutions with enduring results. Our relationship with sustainable design is fostered not only through ordinance provisions and best management practices, but also through our commitment to making positive impacts on the world around us.

For every project, we analyze the potential for applied best management practices and sustainable design. Whether you are considering rain gardens, restoring natural areas or installing permeable pavement, we strive to achieve effective sustainable benefits while providing exceptional site functionality. To forward our commitment, our firm actively participates in sustainability discussions and our associates sit on various committees focused on sustainable goals. We often look to increase the feasibility of sustainable design by searching for and winning grant monies for our clients.

ENVIRONMENT & FORESTRY CONSULTING

Our environmental staff works closely with civil design and water resources teams to incorporate sustainable design elements that minimize the impact of development on the environment.

Gewalt Hamilton helps clients understand and abide by the often complicated range of federal, state and local regulations relating to wetlands and environmentally sensitive areas. We consistently produce designs that balance project function and economics with natural resource preservation, increasing project appeal to both the public and regulatory agencies.

Many of our clients have been with us for years, providing us with the most authentic assurance that our work consistently meets expectations – their loyalty. Both public and private agencies have come to rely on the professional, personal and timely service we provide. At Gewalt Hamilton, we treat every project as just one shared experience in what we hope will be a long-term relationship. We work with our clients, not for them, bringing a team approach to every assignment. Our clients trust us to listen to their needs, provide honest and thoughtful feedback, and deliver exceptional results.

We invite you to experience the Gewalt Hamilton difference and find out why dozens of repeat clients choose Gewalt Hamilton for their civil engineering and surveying projects, large and small.

July 3, 2020

Michigan Avenue Real Estate Group
1235 West Madison Street
Chicago, IL 60607

RE: 84 unit rental development
835 Lake Street, Oak Park, IL

To whom it may concern:

I have had a longstanding lending and banking relationship with Tom Meador and Michigan Avenue Real Estate Group. During this time period, I have provided acquisition and construction financing for several of Michigan Avenue's properties.

After review of the financial salient information, the Bank has determined the proposed development located at 835 Lake Street in Oak Park is qualified for up to 75% financing of the projected total budget. Final approval and terms remain subject to final diligence as determined by our Bank.

Please know that Michigan Avenue Real Estate Group has extensive experience in both the management acquisition and construction of real estate. Their experience will allow them to close and develop the subject property with customary due diligence, but with no concerns in regards their performance or ability to close on this transaction.

If you have any further questions, please feel free to contact me at 312-291-2932.

Best regards,

Bartlett Q. Johnson
Executive Vice President

Re: Limited Lead-Based Paint Survey
835 Lake Street
Oak Park, IL 60301
Project No. 20.1047

Dear Dr. Cooney:

In accordance with the scope of work assigned, this letter presents the results of the lead-based paint survey conducted by Amereco Engineering of the concrete painted components located at the above-mentioned location.

A limited lead-based paint inspection was conducted at 835 Lake Street, Oak Park, Illinois, on February 13, 2020. The Assessment was conducted by Amereco Engineering, 54 Michigan Avenue, Valparaiso, IN 46383, by Jeff Rugg, an Illinois Department of Public Health (IDPH) licensed Risk Assessor, License No. IND000324, Expiration Date: 08/12/2021.

The limited lead-based paint survey was performed using a Viken Detection Pb200i, Cobalt-57 sourced, X-Ray Fluorescent (XRF) device. This survey was intended for the purchase of the building and is not a comprehensive evaluation for the presence of lead-based paint. The Illinois Department of Public Health (IDPH) and the Environmental Protection Agency (EPA) define lead-based paint as being ≥1.0 mg/cm².

The sides of the building were labeled A, B, C, or D side during the lead paint survey. By convention, Side A is the side from which the building address is taken, and the other sides follow in a clockwise direction.

A total of three (3) representative samples were collected throughout the building. Of the samples collected, none were identified to contain lead-based paint. Please refer to the attached XRF lead-based paint results for detailed findings.

The sampling was performed in accordance with all applicable state and federal rules and regulations governing lead based paint in public and commercial buildings. Quality control criteria specific to the analytical method have been met. All QA/QC documentation will remain on file for future reference.

Please call if you have any questions or if I can be of additional assistance in the future.

Respectfully,

Jeff Rugg
Senior Environmental Manager

Re: Pre-Demolition Asbestos Survey
835 Lake Street
Oak Park, IL 60301
Project No. 20.1047

Dear Dr. Cooney:

Thank you for the opportunity to provide you and E. Cooney Associates, Inc. with this service. Attached please find the report associated with the pre-demolition asbestos survey completed at the above-captioned location. This survey was conducted on February 13, 2020, by Jeff Rugg, an Illinois Department of Public Health Licensed Inspector, License No. 100-11334. All sampling and analyses were performed in accordance with all applicable local, state, and federal rules and regulations.

Non-friable suspect materials that are in good condition and may be demolished along with the building were "assumed" to contain asbestos.

Asbestos-Containing Material	Confirmed Location	Estimated Quantity
Asphalt Roofing	Exterior	3,100 SF

Suspect accessible asbestos-containing materials were sampled and analyzed for asbestos content by Polarized Light Microscopy (EPA Method 600/R-93/116). The following asbestos materials were identified:

Asbestos-Containing Material	Location	Friability	Estimated Quantity
12"x12" Floor Tile – Tan with White and Brown Specks	Men's and Women's Restrooms	Non-Friable	100 SF

Please be advised that selective demolition could not be performed during the inspection due to the building being occupied. Therefore, if suspect asbestos-containing materials are encountered during demolition activities, a licensed inspected should be consulted to sample the material.

All asbestos-containing materials must be handled following all applicable local, state and federal rules and regulations.

Please call if you have any questions or if additional assistance can be provided.

Respectfully,

Jeff Rugg
Senior Environmental Manager

TRACY CROSS & ASSOCIATES, INC.

Residential Market Analysis
--- 835 Lake Street Apartments -- An Update ----
Oak Park, Illinois

TO: Mr. Thomas Meador
Ms. Liz Meador
Michigan Avenue Real Estate Group

FROM: Ms. HollyAnn Eageny
Tracy Cross & Associates, Inc.

SUBJECT: Rental Apartment Development
A Competitive Update

DATE: August 18, 2020

INTRODUCTION

At the request of Michigan Avenue Real Estate Group, Tracy Cross & Associates, Inc. conducted selected research services to assess market conditions as they may impact upon rent strategies and absorption potentials of the *835 Lake Street Apartments*, a proposed 84-unit apartment community. This future community reflects redevelopment of an approximate 37,435 square foot parcel aligning Lake Street immediately west of Oak Park Avenue in Oak Park, Illinois. Specifically, this memorandum highlights the current state of the competitive marketplace and relevant changes which have occurred since our November 2019 analysis.

835 LAKE STREET APARTMENTS – A PERSPECTIVE

As conceptualized, 835 Lake Street Apartments will consist of 84 apartments distributed within a six-story residential building to include 78 private structured parking spaces, along with 10 private surface stalls at grade. Parking allocations translate to an enclosed parking ratio of 1.05 stalls per residential unit which is fully consistent with the transit-oriented nature of the proposed community and viewed as sufficient. The parking garage will also provide secured bicycle storage. The first floor will also include a residential lobby, leasing office and mail/package room with technology concierge, along with a fitness studio. Final design concepts *may* also include a small retail component such as an ATM banking center. Designed to achieve a LEED Silver rating, the development will feature architectural design aesthetics complimentary to its Oak Park environs including balconies with clear glass handrail systems. As summarized in the following text table, residential design concepts primarily consist of two bedroom two bath designs, along with a modicum of one bedroom and larger three bedroom plan types, which range in unit size from 827 to 1,499 square feet. Overall, 835 Lake Street Apartments will provide 102,508 net leasable square feet, with the average apartment residence containing 1,220 square feet of living area, *exclusive* of balcony.

PROPOSED RESIDENTIAL MATRIX: 835 LAKE STREET APARTMENTS

Plan Type	Total Units	Percent of Total	Bedrooms/ Baths	Net Rentable Square Feet	
				Per Unit	Total
Plan A-1	4	4.8	1 / 1.0	827	3,308
Plan A-2	4	4.8	1 / 1.0	875	3,500
Plan B-1[1]	2	2.4	2 / 2.0	1,092	2,184
Plan B-2	16	19.0	2 / 2.0	1,159	18,544
Plan B-3	1	1.2	2 / 2.0	1,162	1,162
Plan B-4[1]	16	19.0	2 / 2.0	1,167	18,672
Plan B-5	39	46.4	2 / 2.0	1,338	52,182

C-2[1]	1	1.2	3 / 2.0	1,499	1,499
Total/Average:	***84***	***100.0***	**---**	***1,220***	***102,508***

[1] Indicates a corner-unit orientation.

Source: Michigan Avenue Real Estate Group Concept Schematic dated 8/18/2020.

All apartments are expected to feature quality interior appointments commensurate with new construction apartment development throughout the region. These include ten-foot ceiling height, plank-style engineered wood flooring in kitchens and living areas, with carpeted bedrooms and bedroom-wing hallways; designer kitchens with quartz/granite countertops and islands, ceramic tile backsplash, stainless steel undermount sinks, energy-efficient stainless steel kitchen and laundry appliances; walk-in master bedroom closets; and designer baths with ceramic tile flooring, quartz/granite vanity tops, ceramic bath/shower surrounds and frameless glass shower doors. All apartments will provide internet/cable connectivity, some level of Smart technology, and

adequate secondary closeting. Water/refuse collection will be included in the monthly rent with the resident billed directly for all other utilities.

Pending final approval, construction of 835 Lake Street Apartments is expected to commence in 2021 in anticipation of initial occupancies beginning in the spring of 2023.

CONCLUSION

Based upon a thorough analysis of current market dynamics, Tracy Cross & Associates ***affirms*** our conclusion that 835 Lake Street Apartments represents a *viable development opportunity*. This conclusion is (again) based upon the development's *excellent* location proximate to significant concentrations of employment and ease of access to multiple modes of transportation, healthcare, shopping, and other established ancillary support, along with long term strength seen in economic demand variables.

Our conclusion assumes market introduction in 2023, balancing a well-conceived apartment development with renter construction requirements over the 2020-2025 forecast period. Specifically, the defined Oak Park Market Area could support construction of 235 new rental units annually (or a total of 1,175 units through 2025) without creating market weakness ***if competitive rents are maintained***. This new construction requirement considers Census estimates of household growth over the five-year forecast period, expected levels of renter tenure, multifamily construction trends over the past three decades, replacement demand, as well as a 5.0 to 6.0 percent vacancy allowance necessary to maintain market balance. The 235-unit yearly rental construction requirement represents more than adequate support for the proposed development.

Also lending support to the marketability of 835 Lake Street Apartments, since 2000 and through 2019, Chicago's suburban rental marketplace maintained strong levels of net absorption. Over the last 19 years, for example, the suburban marketplace averaged an estimated net absorption of 1,167 units yearly, with absorption levels accelerating to an annual pace of 2,637 units during the more recent 2016-2019 timeframe. In tandem with the suburban region overall, net absorption in the more localized near west suburbs (which includes Oak Park) has averaged 212 units yearly since 2000, *alone* accounting for 18.2 percent of net suburban Chicago absorption over the last 19 years. Notably, net absorption in the near west suburban area over during the 2016-2019 timeframe *more than doubled* long term trends, averaging 587 units yearly. In fact, the 790 units absorption in 2019 *represented the highest absorption level noted in this localized suburban area since 1995.* Moreover, although the pace of net suburban absorption moderated during the most recent June 2019-June 2020 period, absorption levels in the near west suburbs advanced to 1,183 units, attributed in large part to increased occupancies among existing post-1985 developments, coupled with accelerated new construction of late concentrated in areas *east of I-355.*

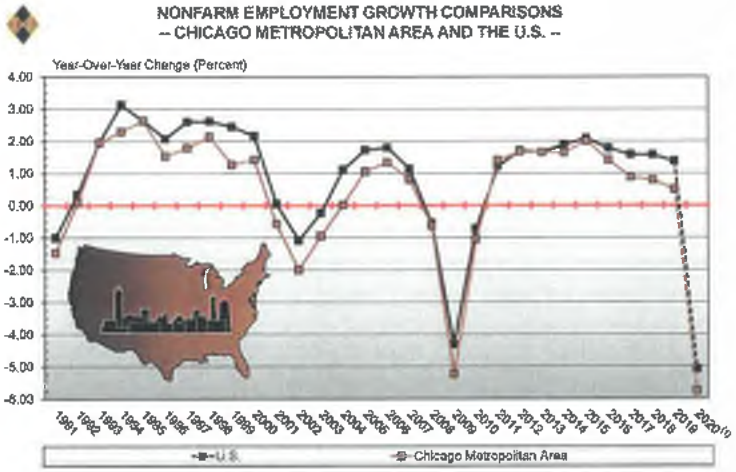
On a cautionary note, in the current environment we would be remiss not to address the impact of the Covid-19 pandemic upon the national and regional economy, exacerbated by the recent period of social unrest, and their implications for the housing market near term. While impossible to quantify given the very fluid nature of the situation, we expect the residential marketplace will be ***significantly impacted*** over the next six- to nine months as employment uncertainty (in particular) continues to grip the nation. As illustrated in the following graphic, for example, total non-agricultural employment in the Chicago, IL Metropolitan Statistical Area stood at 3,557,600, reflecting year-over-year losses of 255,800 jobs or 5.8 percent of total employment. This compares with the 5.1 percent employment contraction witnessed nationwide during the twelve-month period. As might be expected, the majority of contractions occurred during the April-June 2020 period when regional job losses *averaged* 432,400 per month.



(1) YTD June.
Source: U.S. Department of Labor, Bureau of Labor Statistics

Nonetheless, federal stimulus efforts coupled with coordinated reboot of business regionally and nationally have now begun to stabilize the economy with discernible growth anticipated beginning in the 4th Quarter 2020. Regionally, home sales (in particular) have begun to respond with for-sale housing sectors expected to continue to gain traction through the end of 2020 and achieve tangible growth during the 2021-2025 forecast period, especially given today's historic mortgage interest climate and expected favorable conditions for at least the next 24 to 36 months.

Given typical renter profiles, absorption, lease renewals and rents will be *directly impacted* by economic and/or social order disruptions for at least the next twelve months, likely reflected in strong lease incentives, discounting, or rent rollbacks. For example, the service-oriented hospitality industry has endured the most significant employment losses over the last several months *and* is expected to experience a more prolonged recovery period which will have a near term impact upon the rental market. This is especially true considering additional stimulus dollars for the unemployed are not likely to replicate the support given during the April-July 2020 period. That said, the overall impact on this housing subset will vary *dramatically from region to region* and could potentially also result in *intra-regional* shifts in levels of demand. It is notable that according to the Illinois Department of Employment Security, in 2019 there were nearly 2.0 million *private sector* jobs alone within a convenient 40-minute commuting distance of Oak Park, representing major employers across a broad base of industry sectors. Recent employment losses notwithstanding, our favorable conclusion considers the expectation of tangible yet reserved regional economic growth beginning in 2021 and continuing through the 2025 forecast period, in concert with anticipated 2023 market introduction of 835 Lake Street Apartments.

Lastly, in the aftermath of the Covid-19 experience, it is also very likely that consumers across-the-board and (particularly) among profile lifestyle segments, will prioritize health and wellness factors in their housing choices. Incorporating this anticipated shift in lifestyle behaviors in the moderate scale of the proposed development, its unit types and sizes, as well as interior appointments and community amenities, coupled with the energy-efficient technologies of new construction will enable Michigan Avenue Real Estate Group to establish a competitive position in the marketplace of tomorrow.

A BENCHMARK RENTAL STRATEGY

Exhibit 1 forwards a benchmark rental strategy to competitively position the conceptualized 84-unit 835 Lake Street Apartments in context with new construction alternatives throughout the greater near west region which offer similar lifestyle environs. As shown, benchmark posted base rents, which are presented in August 2020 dollars, extend from $1,915 to $3,400 monthly and average $2,724 which includes a 1,220 square foot residence. Benchmark posted base rents yield a value ratio of $2.25 per square foot. For clarity, benchmark posted *base* rents *are established on Floor 2 and include corner-unit premiums for Plans B1, B4, C1 and C2*. They also include Floor 6 premiums for Plans B1, C1 and C2 *only*, but do not include incremental revenues derived from optional enclosed parking, pet fees, administrative fees, or other landlord-provided services. Benchmark rents assume quality interior appointments and community amenities as outlined in Exhibit 1.

A FORECAST OF ABSORPTION

Assuming market introduction in 2023, benchmark posted base rents are established to generate an overall absorption rate of 6.7 units per month. This projected absorption rate would enable the 84-unit community to achieve stabilization at 95.0 percent or 80 units occupied within a twelve-month timeframe ***from first occupancy***. This leasing period assumes extensive marketing commence with site improvements and three- to six months of lease reservations prior to initial deliveries. While the marketplace is expected to maintain balance during the 2020-2025 forecast period, over the course of lease-up it may be necessary to offer a nominal discount or lease incentive on *select* units as the market dictates.

A FORECAST OF ABSORPTION BY TIME PERIOD
-- 835 LAKE STREET APARTMENTS --

Monthly Absorption in Units
-- An 84-Unit Development --

	Monthly Rate	Total Units	Cumulative Total
Months 1 - 3[1]	8.5	26	26
Months 4 - 6	7.0	21	47
Months 7 - 12	5.5	33	80
Average Absorption Rate:		***6.7 Units / Month***	
Months to Stabilization (80 units @ 95% Occupancy)		***12.0 Months***	

[1] Lease reservation marketing, assumed to commence at least three (3) months prior to initial occupancy, are factored into this forecast.

COMPETITIVE POSITIONING

From a practical standpoint, 835 Lake Street Apartments will experience its strongest levels of competitive influence from nine new construction and/or fully renovated apartment developments marketing in Oak Park itself and in nearby La Grange which share commonalities in terms of access to multiple modes of transit, sources of employment, and strong in-place ancillary shopping, dining and entertainment. These localized urban-oriented developments were built and/or fully renovated during the 2008-2020 timeframe and all represent product forms with structured parking available for an incremental fee. All are within walking distance of public transit and offer a broad range of plan types and unit sizes thus expanding market appeal from an affordability standpoint. **Exhibit 2** provides a geographic orientation of the nine newer developments, along with projects now under construction and/or in the planning pipeline in the immediate area, while a composite summary is provided in **Exhibit 3**. This table also summarizes characteristics of newer apartment developments of similar scale found in the Near West and West Town community areas of Chicago as these latter communities may represent a source of competitive substitution.

BENCHMARK STANDARDS / COMMUNITY AMENITIES / SUGGESTED PREMIUMS AND FEES[4]

- Individually Controlled Heat/Air Conditioning
- Internet/Cable/Smart Technology Connectivity
- Ten-Foot Ceiling Height
- Designer Finishes Throughout
- Plank-Style Engineered Wood Flooring in Kitchen/Living Areas
- Carpeted Bedrooms and Bedroom-wing Hallways
- Walk-in Master Bedroom Closet w/Organizer; Adequate Secondary Closeting
- Designer Baths with Ceramic Flooring, Quartz/Granite Vanity Top, Frameless Glass Shower Doors, Ceramic Tub/Shower Surround
- Designer Kitchen Cabinetry and Lighting
- Quartz/Granite Kitchen Countertop/Island
- Energy Efficient Stainless Steel Appliances
  - Range
  - Dishwasher
  - Refrigerator
  - Microwave/Hood Vent
  - Full-Size Washer and Dryer
- Undermount Stainless Steel Sink with Garbage Disposal
- Balcony

- LEED-Certified Construction Technologies
- Non-Smoking Environment
- Secured Reception Lobby
- Secured Mail/Package Room with Technology Concierge
- Secured Bicycle Storage
- Fitness Studio
- 24-Hour Maintenance Service
- Water/Refuse Service Included
- Individually Metered Utilities
- On-Site Leasing/Management Office

Suggested Premiums/Incremental Fees:

- Corner-Unit Premium: Included (Value at $50 per Month)
- Floor Premium: Floors 3 through 5 @ $10; Floor 6 Included (Value at $20)
- View Premium: $25 to $50 (Assumes maximum of 15% or +/-12 Units)
- Assigned Enclosed Single Parking Space @ $125 per Month
- Pet Fees (Deposit/Mo. Rent): $350 / $30

[1] Benchmarkposted base rents are presented in August 2020 dollars and ***include*** premiums for corner-unit orientation as well as floor premiums Plans B1, C1 and C2 ***only***. ***They do not include*** premiums for floors 3-5 or enhanced views. Nor do they include incremental revenues derived from optional enclosed parking, pet fees, administrative fees or other landlord-provided services.

[2] Overall rents, which are presented in August 2020 dollars, include ***estimates*** of floor and corner-unit premiums only. They ***do not include*** premiums for enhanced views or revenues derived from optional enclosed parking, pet fees, administrative fees or other landlord-provided services.

[3] Indicates a corner-unit orientation.

[4] Benchmark rents and absorption forecast ***assume a minimum*** of 88 structured and surface parking spaces will be provided as outlined in the Concept Plan dated 8/18/2020. Proposed parking allocations yield a sufficient parking ratio of 1.05 parking stalls per residential unit.

[1] Excludes rental programs currently undergoing renovation and/or new programs undergoing initial absorption.
[2] Leasing commenced May 2019; initial occupancy August 2019. Absorption rate of 13.0 units per month reflects 140 units occupied as of June 2020.
[3] Leasing commenced January 2019; initial occupancy March 2019. Absorption rate of 13.2 units per month reflects 208 units occupied as of June 2020.
[4] Initial occupancy September 2017; stabilized November 2018 at an overall absorption rate of 17.0 units per month.
[5] Initial occupancy August 2016; stabilized May 2018 at an overall absorption rate of 11.9 units per month.
[6] Leasing commenced July 22, 2020; one (1) unit leased.
[7] Developments not included in market area statistics; utilized for analytical purposes only.
[8] Leasing commenced May 2020; initial occupancy June 2020. Absorption rate of 30.0 units per month reflects 15 units occupied as of August 2020; 32 total units leased translates to leasing rate of 12.0 units per month.

Source: Tracy Cross & Associates, Inc.

- **Exhibits 4 and 5** illustrate the competitive benchmark positioning of the proposed development (in both whole dollars and for comparable footage) relative to newer localized communities. For example, ...

  - On a *comparable footage basis*, benchmark rents appropriately position 835 Lake Street modestly below the market average among the six newest construction developments in the marketplace. This competitive posture balances the expected quality new construction alternative with variances in location, project scale and levels of community amenities. However, benchmark rents also position 835 Lake Street *well above* the two older renovated projects in downtown Oak Park (again) for comparable footage.

  - The benchmark value positioning also considers the dramatic shift in vacancies over the last twelve months. Specifically, as detailed in Exhibit 3, vacancies among the four *stabilized* projects in the local area currently stand at 8.1 percent, *nearly three times* the 3.0 percent vacancy factor noted in June 2019. The impact of the current environment is even more pronounced among similar projects in the Near West and West Town areas, where vacancies have surged to an overall average of 8.7 percent from a very tight 1.9 percent vacancy factor one year ago. Exhibit 3 also illustrates that, across-the-board, vacancies in the marketplace have resulted in accelerated levels of lease incentives and discounts, with effective rents among localized projects now *averaging* $2.18 per square foot or roughly a 10.0 percent discount from posted rents.

  - Similarly, **Exhibits 6 and 7** illustrate the competitive value positioning of 835 Lake Street relative to projects of similar scale and design marketing throughout the Near West and West Town neighborhoods of Chicago. As shown, after adjusting benchmark rents to include the value of an enclosed parking space consistent with most of these latter communities, the benchmark rent structure represents a strong competitive positioning in both whole dollars *and* for comparable footage relative to these potential truly urban alternatives.

- On a cautionary note, it cannot be overstated that ***in whole dollars*** benchmark rents position 835 Lake Street among the ***highest posted rents*** in the whole of the near west suburbs, some $600 higher (on average) than amenity-enhanced counterparts locally as well as in transit-oriented and/or mixed-use locales in Downers Grove, Elmhurst, Lombard, Oakbrook Terrace and Wheaton. These variances suggest that Michigan Avenue Real Estate Group *must maintain an aggressive marketing posture through stabilization* and a ***judicious approach to rent growth thereafter*** in order to maintain a competitive advantage in the marketplace. To this point, and consistent with new projects now undergoing lease-up throughout the general area, in order to achieve the projected absorption rate, it may be necessary to also offer some form of incentive such as one month free with a 13-month lease through stabilization, while planning for similar promotions thereafter as competitive conditions dictate.

- The 6.7-unit per month absorption forecast is modestly lower than the average 11.6-unit monthly absorption levels generated by newer localized developments during their respective stabilization periods, reflecting the larger scale of these latter projects, coupled with broader continuums of plan types and unit sizes, as well as variances in location and levels of amenities. To this point, in relative terms, the projected absorption rate appropriately reflects variances between the two newest Oak Park developments, namely *Albion at Oak Park* and *Eleven33* where absorption rates as of June 2020 average 13.1 units monthly. However, as detailed in Exhibit 3, each of these communities is also marketing aggressive lease incentives to encourage lease-up.

ABSORPTION TRENDS: SELECT NEWER APARTMENT DEVELOPMENTS
-- OAK PARK MARKET AREA - JUNE 2020 --

Development/Location	Total Units	Occupancy (Month/Year)	Stabilization (Month/Year)	Average Unit Absorption Per Month Since Opening
Oak Park Place/Oak Park	200	November 2008	December 2010	6.9
Vantage/Oak Park	270	August 2016	May 2018	11.9
Uptown La Grange/La Grange	271	May 2017	April 2019	10.7
The Emerson/Oak Park	271	September 2017	November 2018	17.0
Total Units/Average Unit Absorption:	**1,012**	---	---	**11.6**
Average Development Size:	**253**	---	---	---

Source: Tracy Cross & Associates, Inc.

- The forecasted pace of absorption can also be supported by turnover in the market area's existing rental stock. As previously noted, some 30,000 Oak Park Market Area householders are renters. Of these, approximately 9,000 will move annually, with at least 50 percent of these mobile households remaining renters, staying in the local area, and thus representing part of the subject development's pool of prospective residents. Hence, the forecasted overall absorption rate of 6.7 units per month represents *less than 2.0 percent* of aggregate new construction requirements and turnover potentials.

- As also noted in our initial analysis, the conceptualized apartment development *fully addresses* current and expected future trends in the residential marketplace; is representative of the newest urban apartment offerings in the region; and is designed to appeal across a broad spectrum of consumer segments, including not only younger professional singles and childless couples, but also more mature consumers desirous of a lifestyle environment.

[1] Includes developments outlined in Exhibits 2 through 5.

Source: Michigan Avenue Real Estate Group and Tracy Cross & Associates, Inc.

- To this latter point, lifestyle rental alternatives are generating strong interest among consumers between the ages of 45 and 74 given, in most cases, the high level of amenities and/or concierge services available to residents. Lending support to absorption potentials at 835 Lake Street, it is again noted that roughly 56.0 percent of Oak Park Market Area householders align age categories between 45 and 74, while American Community Survey estimates derived from the 2010 Census reveal that roughly 40.0 percent of the market area's *existing renters* also reflect these profile age categories. That said, and with specific focus upon potential profile mature/move-down consumer segments, factors related to mobility and lifestyle preferences indicate that despite the aging of the general population, householders in their maturing lifecycle move infrequently. In fact, most householders in age categories of 55 and older are completely satisfied with their current residence, with less than 6.0 percent moving on an annual basis. The projected absorption pace reflects mobility factors among profile cohort consumer groups and limited plan differentiation versus the market overall, coupled with a benchmark rent strategy which positions the community at the highest income echelons of profile consumer segments where demand levels begin to thin. For this reason, it is strongly recommended that dedicated marketing efforts begin with site improvements, with lease reservations beginning *at least three (3) months prior to initial deliveries.*

- Lastly, the benchmark rent strategy and absorption forecast also consider an *intensely competitive environment* marked by periods of accelerated apartment construction. This pattern of development will continue for the foreseeable future and intensify short term as, apart from the proposed 835 Lake Street Apartments, there are currently eleven *announced* rental projects and no fewer than 1,600 new apartment units under construction and/or in various stages of the planning pipeline in west suburban areas proximate to Oak Park **(Exhibit 8)**. Of these, three projects and a collective 594 units are expected to begin lease reservation marketing and/or occupancy within the next 12- to 18 months, reinforcing the necessity to maintain an aggressive marketing approach through stabilization and beyond. While it is acknowledged that only three boutique projects (including the Client's Madison Gunderson Place) are planned in Oak Park itself, several developments in west suburban Elmhurst, Lombard, Westmont and Oak Brook (in particular) will offer plan styles and amenity-enhanced living environments which also have an appeal to profile mature/move-down and or discretionary-income consumers. The marketplace, however, is expected to maintain balanced occupancies despite the number of units which could be introduced over the 2020-2025 timeframe, save for short periods should multiple developments come on-line within six- to nine months of one another.

ALTERNATIVE BENCHMARK RENT STRATEGIES

To reiterate, benchmark strategies are established to provide a competitive position in the marketplace and allow for an acceptable absorption period for the proposed 84-unit development. As these lease rates may differ from Michigan Avenue Real Estate Group's financial objectives, the following text table outlines alternative benchmark strategies and attendant absorption forecasts to assist in continued pro forma financial modeling.

8 RENTAL APARTMENT PROJECTS IN PLANNING[1]: NEAR WEST SUBURBAN AREAS PROXIMATE TO OAK PARK

Municipality/ Proposed Development	Location	Builder/Developer	Current Status[2;3]	Number of Units

2,717	2.23	-25	8.7	6.1	6.8	11.8
2,692	2.21	-50	9.0	6.3	7.0	11.4
2,667	2.19	-75	9.3	6.5	7.3	11.0
2,642	2.17	-100	9.6	6.7	7.5	10.6

(1) Benchmark posted base rents are presented in August 2020 dollars. They *include* premiums for corner-unit orientation and Floor 6, but do not include premiums for Floors 3-5 or enhanced views. Nor do they include incremental revenues derived from optional enclosed parking, pet fees, administrative fees, etc.

(2) Starting at the first month of occupancy. Marketing and lead list generation assumed to commence with site improvements. Lease reservations, which are anticipated to begin *at least* three (3) months prior to initial occupancies, are factored into this forecast.

Source: Tracy Cross & Associates, Inc.

It is again noted that the benchmark rents and associated absorption potentials are presented in current 2020 dollars. Given anticipated market conditions, it is likely that area rents will continue to moderate near term. For pro forma comparisons and barring *additional* unforeseen economic turmoil, it is therefore *strongly suggested* that posted benchmark rents ***be held constant through at least 2021***, with modest annual rent appreciation in the range of 1.5 to 2.0 percent applied to benchmark rents *beginning in 2022*.

GENERAL LIMITING CONDITIONS

Tracy Cross & Associates, Inc. has made extensive efforts to confirm the accuracy and timeliness of the information contained in this study. Such information was compiled from a variety of sources, including interviews with developers and their agents, government officials, and other third parties. Although Tracy Cross & Associates, Inc. believes all information in this study is correct, it does not warrant the accuracy of such information and assumes no responsibility for inaccuracies in the information provided by third parties.

Conclusions and recommendations established in this analysis represent a professional opinion and are based upon forecasts into the future which could be significantly altered by outside occurrences. These include, among others, the possible interplay of unforeseen social, economic, physical/environmental, and governmental actions. In this regard, Tracy Cross & Associates, Inc., its owners, and its employees shall be held harmless of changes in conditions that may materially result from these occurrences.

Subject: *Proposed Residential Development*
835 Lake Street – Oak Park, Illinois

Part I. Project Context and Summary Statement

Gewalt Hamilton Associates, Inc. (GHA) has conducted a Traffic Impact Study (TIS) for the above captioned project. The site is located at 835 W. Lake Street: the former US Bank building. As proposed, the 6-story building would have 84 multi-family units and 78 indoor parking spaces, including four ADA spaces. An additional 10 required spaces and two additional guest spaces will be provided via Lot 96 to the south, accessed via North Boulevard, to meet the Village required one to one parking ratio (one space per unit). Lake Street, Oak Park Avenue, Kenilworth Avenue, South Boulevard, and North Boulevard are all under the Village of Oak Park jurisdiction.

The following summarizes our TIS findings and provides various recommendations for your consideration. *Exhibits* and *Appendices* referenced are centrally located at the end of this document. Briefly summarizing, we believe that the development traffic can be accommodated on the adjacent streets. Reasons include:

- The site is served well by all modes of transportation, including major streets and Pace bus routes 309, 311, and 313. Additionally, the development is located within walking distance of both the CTA Green Line (Oak Park) and the Metra Union Pacific West (UP-W) Line.
- Per US Census data, the apartments will generate a significant portion of non-auto trips, approximately 30%.
- Apartment traffic will have a very limited impact on current operations along Lake Street and Oak Park Avenue and at their intersection.

- The parking supply of 78 indoor spaces plus the required 10 outdoor spaces and two additional guest spaces in Lot 96 meets the Village code requirement of 1.0 spaces per dwelling unit.

Part II. Background Information

Site Location Map, Existing Traffic Operations, and Roadway Inventory

Exhibit 1 provides a site location map, *Exhibit 2A* illustrates the surrounding area land uses, while *Exhibit 2B* depicts the existing traffic operations. *Exhibit 2C* outlines the parking operations within the study area and *Appendix A* provides a photo inventory of the site vicinity. Pertinent comments regarding land-uses in the site vicinity and transportation components, both vehicular and non-auto mobility include:

Roadway Inventory

Lake Street

- Lake Street is an east-west route and is under the jurisdiction of the Village of Oak Park.
- Lake Street is classified as a "Major Collector" on the Illinois Department of Transportation (IDOT) functional classification map, with a posted speed limit of 25-miles per hour (mph).
- Lake Street provides separate left and right turn lanes on eastbound/westbound approaches at its signalized intersection with Oak Park Avenue. Right turns on red are prohibited between 7 AM – 7 PM at each leg of the intersection.
- Lake Street provides separate left and through-right lanes on eastbound/westbound approaches at its signalized intersection with Kenilworth Avenue.

Oak Park Avenue

- Oak Park Avenue is a north-south route and is under the jurisdiction of the Village of Oak Park.
- Oak Park Avenue is classified as a "Major Collector" on the IDOT functional classification map, with a posted speed limit of 25-mph.
- On the northbound/southbound approaches, Oak Park Avenue provides separate left, through, and through-right lanes with Lake Street. Right turns on red are prohibited between 7 AM – 7 PM at each leg of the intersection.
- At its intersection with North Boulevard, Oak Park Avenue provides a separate left turn lanes in the southbound direction and a separate right turn lane in the northbound direction. North Boulevard is one-way eastbound.
- Oak Park Avenue provides shared through-left and through-right lanes in the both the northbound and southbound direction at its intersection with South Boulevard. South Boulevard is one-way westbound while travelling west of Oak Park Avenue and two-way operations while travelling east of Oak Park Avenue.

North Boulevard

- North Boulevard is an east-west street that is under local jurisdiction.
- North Boulevard supports one-way operations eastbound. North Boulevard has no posted speed limit within the site vicinity.
- North Boulevard supports an eastbound bike lane.
- At its intersection with Oak Park Avenue, North Boulevard provides a separate through-left and right-turn lane in the eastbound direction.

- North Boulevard provides a shared left-through-right lane in the eastbound direction at its intersection with Kenilworth Ave.

South Boulevard

- South Boulevard is an east-west street that is under local jurisdiction.
- South Boulevard supports one-way operations westbound while travelling west of Oak Park Avenue. South Boulevard switches to two-way operations while travelling east of Oak Park Avenue. South Boulevard has no posted speed limit within the site vicinity.
- At its intersection with Oak Park Avenue, South Boulevard provides a shared through-left-right lane in the westbound direction.
- South Boulevard provides a shared left-through-right lane in the westbound direction at its intersection with Kenilworth Ave.

Non-Motorized Mobility

- Pace operates bus route #311 along Oak Park Avenue with stops at both the intersections of South Boulevard and Lake Street. Additionally, Pace operates bus routes #309 and #313 along Lake Street, with stops at the intersections of Kenilworth Avenue and Oak Park Avenue with Lake Street.
- Pedestrian crosswalks are striped on all major approaches at each study area intersection.
- Sidewalks are provided on both sides of the street for all roadways in the site vicinity, with the exception of the south side of North Boulevard due to railroad tracks.
- North Boulevard supports an eastbound bike lane.
- The CTA Green Line runs parallel to Lake Street about 300 feet south of the site. The closest station (Oak Park) is located at the intersection of Oak Park Avenue and South Boulevard.
- The CTA Blue Line is located about 1 mile south of the site, along Interstate-290.
- The Metra Union Pacific West Line runs alongside the CTA Green Line in Oak Park, with the Oak Park station located at 1115 W. North Boulevard, about ¼ mile to the west of the site.

2028 No-Build Traffic

Due to abnormal conditions in connection with the COVID-19 pandemic, no new traffic data was collected for this study. GHA and the Illinois Department of Transportation (IDOT) have observed that traffic volumes have decreased as much as 40% in some cases throughout Chicagoland. Due to this, it is counterproductive to conduct new traffic counts as the data would not represent normal travel patterns. Fortunately, the Village of Oak Park had previously conducted traffic counts at all of the study area intersections that were provided via a robust and thorough Synchro Traffic Model.

IDOT generally requires that the traffic volumes be increased to reflect other growth in the area for a "Buildout + 5 year" analysis. The Village Synchro Model provided 2025 no-build traffic volumes, which encompasses projected growth within the site vicinity through 2020.

835 Lake Street full buildout and occupancy is expected to be completed in the Year 2023, so the analysis horizon becomes the Year 2028. In order to project traffic volumes into the future, the Chicago Metropolitan Agency for Planning (CMAP) was contacted to provide Year 2050 traffic projections (see ***Appendix B***). Per the CMAP information, an overall annual, compounded growth rate of 0.4 percent per year can be anticipated on Lake Street and Oak Park Avenue north of Lake Street. Additionally, a growth rate of 0.25 percent per year

is anticipated along Oak Park Avenue south of Lake Street. To provide a conservative analysis scenario, an overall annual, compounded growth rate of 0.5 percent was applied to all the roadways in the site vicinity. *Exhibit 3* illustrates the 2028 No-Build Weekday Morning and Evening Peak Hour traffic volumes and the Annual Average Daily Traffic (AADT) volumes obtained from the IDOT Website gettingaroundillinois.com.

Crash Analysis

Crash data was obtained from the IDOT Division of Transportation and Safety for the last five calendar years, 2014 through 2018[i]. A summary of the crash data is provided in *Table 1* with the locations mapped on the exhibit contained in *Appendix C*.

Table 1: Crash Summary (2014-2018) [A]

Location / Year	No. of Crashes	Severity [B]					Crash Type [D]						Percent During Wet/Icy Conditions
		PD	PI [C]			F	CM	RE	HO	FO	Ped	Bike	
			A	B	C								
Intersections - Crashes within 200' of intersection													
Kenilworth Ave & South Blvd	8	6	1	1	-	-	2	-	-	4	2	-	50%
Kenilworth Ave & North Blvd	5	2	-	2	1	-	2	-	-	2	1	-	0%

Lake St & Oak Park Ave	71	53	5	6	7	-	30	28	-	8	3	2	23%
Oak Park Ave & North Blvd	24	18	-	2	4	-	11	5	-	5	3	-	25%
Oak Park Ave & South Blvd	23	18	1	2	2	-	9	1	-	10	2	1	13%
Segments													
Along Kenilworth Ave between North Blvd & Lake St	4	4	-	-	-	-	1	-	-	3	-	-	0%
Along Lake St between Kenilworth Ave and Oak Park Ave	7	6	-	1	-	-	3	2	-	2	-	-	0%
Along Oak Park Ave between Lake St & North Blvd	8	7	-	1	-	-	1	5	-	2	-	-	13%
Along North Blvd between Kenilworth Ave & Oak Park Ave	4	4	-	-	-	-	-	-	-	4	-	-	25%
Along South Blvd between Kenilworth Ave & Oak Park Ave	2	2	-	-	-	-	1	-	-	1	-	-	0%
Total (2014-18)	182	134	7	18	23	0	68	50	0	45	13	6	19%

[A] Source: IDOT Division of Transportation Safety for the 2014-2018 calendar years. [B] PD = property damage only; PI = personal injury; F = fatality.
[C] Type A (incapacitating injury); Type B (non-incapacitating injury); Type C (possible injury).
[D] CM = cross movement/angle; RE = rear end; HO = head on; FO = fixed object; Ped = pedestrian.

[i] Complete year 2019, as well as year 2020 crash data was not available from IDOT at the time of this study.

As shown in Table 1, the intersection of Lake Street and Oak Park Avenue has experienced the highest number of crashes within the study area over the five-year analyses period, with an average of approximately 14 crashes per year. Approximately 75 percent (53 of 71) of the crashes involved property damage only and approximately 39 percent (28 of 71) were rear-end type collisions. There was three crashes at this intersection over the five-year analysis period that involved a pedestrian and two crashes that involved bicyclists. Additionally, there were 16 additional crashes throughout the study area intersections that involved a pedestrian or bicyclist.

Part III. Project Traffic Characteristics

Site Plan

Per the site plan prepared by Space Architects + Planners dated September 1, 2020, (see ***Exhibit 4***), the existing US Bank building at the site is to be razed, and a new 6-story building is to be constructed with 84 apartments, a fitness center, and a small 300 SF US Bank ATM Kiosk. It should be noted that no employees will be present at the US Bank ATM Kiosk. The main pedestrian entrance will be located off Lake Street. Alternatively, a pedestrian entrance will also be located off of the alleyway behind the building (south side) as this gives residents access to the east/west pedestrianized alleyway that intersects with Oak Park Avenue. Parking will be provided via a first-floor parking garage with 78 parking spaces (including four ADA spaces) along with a dedicated bike parking room. Additionally, Parking Lot 96, which is located at 822 North Boulevard is being acquired with the property and will provide an additional 10 required parking spaces for residents of the development in order to meet the Village required one to one parking ratio (one space per unit). Lot 96 will also provide two additional guest spaces for the development. Parking Lot 13, which is located within the site boundaries, will be removed and all of the current occupants can be readily accommodated in the Avenue Public Parking Garage at 720 North Boulevard.

Vehicular access to the parking garage will be provided via the public alleyway located to the south of the building. As mentioned previously, Parking Lot 96 will be acquired as part of the development. Through coordination with Village staff, a circulation plan for entry/exit to the parking garage was formulated. The parking spaces along the west side of Parking Lot 96 will be turned into parallel spaces and a drive-aisle will be provided, still supporting one-way northbound operations with the entrance off of North Boulevard. The spaces along the east side of the parking lot will be maintained as angled spaces. Circulation into the parking garage will operate counterclockwise, with Parking Lot 96 acting as the one-way northbound entry and the alleyway immediately west of Parking Lot 55 operating as the one-way southbound exit.

> *Discussion Point.* The two existing curb cuts along Lake Street are to be removed and no vehicular access will be provided along Lake Street. Removing these curb cuts creates a more pedestrian friendly environment along Lake Street and also increases safety for both motorists and pedestrians as there will be reduced conflict points. This is an excellent example of access management strategy.

Traffic Generations and Trip Distribution

Exhibit 5 – Part A summarizes the weekday morning and evening peak hour and daily auto trip generations for the apartments that were based on rate information published by the Institute of Transportation Engineers (ITE) *Trip Generation Manual* – 10th Edition (see ***Appendix D***).

Discussion Point. The trip generations do reflect the various non-auto travel mode alternatives that are in abundance near 835 Lake Street. US Census data for census tracts surrounding the site indicate that about 30% of trips are non-auto oriented. Due to the close proximately of both the CTA Green Line, Metra UP-W Line, and bike lanes – a 30% reduction in trips was applied. This is exhibited on the volumes shown on *Exhibit 5 – Part A*. Additionally, a comparison was made to the previous site use, a Drive-In Bank (US Bank). As can be seen, the new residential development land use is expected to generate 23 fewer trips during the AM peak hour, 110 fewer trips during the PM peak hour, and 304 fewer trips during an average weekday.

Exhibit 5 – Part B lists the anticipated trip distribution and reflects the anticipated travel patterns. Based upon the Village Synchro Model traffic volumes and knowledge of local travel patterns, the majority of apartment trips will be oriented to/from Interstate-290 via both Oak Park Avenue and Lake Street.

Part IV – Traffic and Parking Evaluation

Traffic Assignments

Site traffic was assigned to the adjacent streets based on the project characteristics (see *Exhibit 5*) and is illustrated in *Exhibit 6*. Site traffic and the 2028 No-Build volumes (see *Exhibit 3*) were added together added to produce the Year 2028 total traffic assignment, which is illustrated in *Exhibit 7*.

Intersection Capacity and Queue Analyses

Capacity analyses are a standard measurement in the transportation industry that identifies how an intersection operates. *Exhibit 8 – Part A* lists the analysis parameters, as published in the Transportation Research Board's (TRB) Highway Capacity Manual – 6th Edition, 2016 (HCM). They are measured in terms of level of service (LOS). LOS A is the best rating, with LOS F being the worst. LOS C is considered appropriate for "design" purposes and LOS D is usually considered as providing the lower threshold of "acceptable" operations. LOS E and F are usually considered unacceptable.

Exhibit 8 - Part B summarizes the intersection capacity and queue analysis results. The capacity analysis summary printouts are provided in *Appendix E*. As can be seen from *Exhibit 8*, site traffic will have a minimal impact on operations at all intersections tested, with most results at or better than the "acceptable" LOS C with the exception being Kenilworth Avenue and Lake Street. In fact, the additional morning and evening peak hour delays at almost all the study area intersections will be less than one second, with the exception again being Kenilworth Avenue and Lake Street during the AM peak hour with a delay increase of 1.3 seconds.

Traffic Impact Discussion

Apartment traffic will represent the following volumes traveling through the Lake Street intersection with Oak Park Avenue:

- During the weekday morning peak hour (see *Exhibit 3*), there are currently about 2,250 vehicles or about 37 vehicles per minute. The apartments would add only 9 trips or about 1 trip every 6-7 minutes.

- During the weekday evening peak hour, there are currently about 2,480 vehicles or about 41 vehicles per minute. The apartments would add only 9 trips or about 1 trip every 6-7 minutes.

Key Finding. Based on the above, it can be concluded that no street or intersection improvements would be necessary to specifically accommodate site traffic. Thus, our recommendations focus on the on-site planning elements (e.g. access operations and parking) and on enhancing pedestrian and bicycle mobility.

On-Site Planning Elements

Site Access

- No vehicular access will be provided along Lake Street and the two existing curb cuts will be removed, which will enhance the pedestrian experience and improve safety.
- Vehicular access to the parking garage will be provided via the public alleyway located to the south of the building.
- Existing site traffic should have signage that directs residents to head westbound (right-turn only) as they exit the garage.
- Exiting site traffic should have Stop control at the parking garage and at North Boulevard.
- Any disrupted sidewalk along the site should be replaced.

Parking Evaluation

Parking will be provided via a first-floor parking garage with 78 parking spaces (including four ADA spaces) along with a dedicated bike parking room. The parking garage will be accessed exclusively from the public alleyway to the south of the property. The garage will provide garage doors that will require a remote key fob to open and close to ensure safety.

Additionally, Parking Lot 96 (see ***Exhibit 2C***), which is located at 822 North Boulevard is being acquired with the property and will provide 10 required parking spaces for residents of the development. This brings the total parking spaces provided by the development up to the required 88 parking spaces, which meets the Village required one to one parking ratio (one space per unit). Parking Lot 96 will also provide two additional guest parking spaces for the development. ***Appendix F*** depicts the parking operations and traffic circulation for both the site parking garage and Parking Lot 96.

According to data provided by the Village of Oak Park, parking Lot 96 currently provides 37 permit parking spaces and has 34 out of its 37 parking permits sold. Repurposing a portion of the west side of the parking lot into a one-way northbound drive aisle and installing parallel parking will reduce the number of spaces by 9 to a total number of 28 spaces. 12 of the remaining 28 spaces will be dedicated to the 835 Lake Street development, leaving 16 permit spaces available in Parking Lot 96. 18 permit parking spaces will need to be accommodated in other adjacent Village parking lots.

Parking Lot 13 (see ***Exhibit 2C***), which is located within the site boundaries, will be removed and all current occupants will need to be accommodated in neighboring parking lots. Lot 13 currently provides 36 permit spaces and has 30 out its 36 permit spaces sold. 30 permit parking spaces will need to be accommodated in other adjacent Village parking lots.

Table 2 depicted below provides adjacent Village parking lots that are located close enough to accommodate the 48 permit parking spaces that will be displaced:

Table 2: Village Parking Lots

Parking Lot Location/Name	Supply	Permits Sold	% Occupancy	Permits Available
The Avenue Public Parking Garage at 720 North Blvd	526 permit Spaces	321 permits sold (449 permits sold) [A]	61% (85%) [A]	205 (77) [A]
Lot 55 at 832 North Blvd	27 permit Spaces	27 permits sold	100%	0
Along North Blvd from Kenilworth Ave to Oak Park Ave	14 permit Spaces	14 permits sold	100%	0

[A] Permits sold, occupancy percentage, and permits available based upon Pre-COVID data provided by the Village

As can be seen the Avenue Pubic Parking Garage will be able to accommodate the 48 permit parking spaces that will be displaced. Currently there are 205 permit spaces available within the garage. Village data has shown that due to the COVID-19 pandemic, occupancy percentages are lower than normal (from 85% down to 61%) and as such, we tested how many permit spaces would be available under normal circumstances. While at 85% occupancy, 77 permit spaces would be available within the Avenue Public Parking Garage, which is about 29 spaces more than the 48 that will be needed.

Part V. Technical Addendum

The following *Exhibits* and *Appendices* were previously referenced. They provide technical support for our observations, findings, and recommendations discussed in the text.

Intersection Capacity and Queue Analyses

Proposed Multi-Family Development - 835 Lake Street, Oak Park, IL

Part A. Parameters - Type of Traffic Control *(Source: Highway Capacity Manual 6th Edition)*

I. Traffic Signals

LOS	Delay (sec / veh)	Description
A	<10	All signal phases clear waiting vehicles without delay
B	>10 and < 20	Minimal delay experienced on select signal phases
C	>20 and < 35	Some delay experienced on several phases; often used as design criteria
D	>35 and < 55	Usually considered as the acceptable delay standard
E	>55 and < 80	Very long delays experienced during the peak hours
F	>80	Unacceptable delays experienced throughout the peak hours

II. Stop Sign

LOS	Delay (sec / veh)
A	< 10
B	>10 and < 15
C	>15 and < 25
D	>25 and < 35
E	>35 and < 50
F	>50

Subject: Lake Street @ Oak Park Avenue
IDOT

Dear Mr. Opitz:

In response to a request made on your behalf and dated June 19, 2020, we have developed year 2050 average daily traffic (ADT) projections for the subject location.

ROAD SEGMENT	Current Volumes	Year 2050 ADT
Oak Park Ave north of Lake St	8,950	10,000
Oak Park Ave south of Lake St	12,700	13,800
Lake St, @ Oak Park Ave	10,850	12,300

Traffic projections are developed using existing ADT data provided in the request letter and the results from the March 2020 CMAP Travel Demand Analysis. The regional travel model uses CMAP 2050 socioeconomic projections and assumes the implementation of the ON TO 2050 Comprehensive Regional Plan for the Northeastern Illinois area. The provision of this data in support of your request does not constitute a CMAP endorsement of the proposed development or any subsequent developments.

If you have any questions, please call me at (312) 386-8806.

Sincerely,

Jose Rodriguez, PTP, AICP
Senior Planner, Research & Analysis

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

Intersection Summary

~ Volume exceeds capacity, queue is theoretically infinite.
Queue shown is maximum after two cycles.

95th percentile volume exceeds capacity, queue may be longer.
Queue shown is maximum after two cycles.

m Volume for 95th percentile queue is metered by upstream signal.

Compliance with Oak Park's Comprehensive Plan
Envision Oak Park 2014

The 835 Lake Street Place development will contribute to achieving many of the goals and objectives established in the Village's Envision Oak Park Comprehensive Plan. The specific Goals and Objectives are identified below, and reasons cited for the Development's assistance in the Village attaining the listed goals.

Vision Statement Section 4

"The close proximity between housing, shopping, and jobs fosters a walkable environment with convenient access to everyday needs. New infill development exhibits quality architecture and has been context sensitive. This has served to transform vacant and underutilized properties, creating more intact and sustainable neighborhoods, corridors, and commercial districts".

This development is a textbook example of the Vision as outlined above. The property, while adequately maintained, is underutilized and does not allow for maximum highest and best use as a Village asset. As the banking industry changes and brick-and-mortar branches are replaced by bank's online service to their customers, drive thru facilities as the one currently occupying the property at 835 Lake Street have become virtually obsolete. This provides Oak Park with a unique opportunity to meet its Vision by transforming this property.
Of note, is the property's **Walk Score: 93 " Walker's Paradise" Daily errands do not require a car.**

Goal 4.1.2 Strengthen the community's urban fabric through context sensitive infill development that is complementary to the scale and character of surrounding residential neighborhoods.

The architect has worked in collaboration with Wight and Company, the Village's design consultant to develop the plan, scale and massing of the proposed building including setbacks and sightline simulations so as to complement the scale and character of the surrounding neighborhood. It is important to note that the architect carefully mapped the height of the proposed building and "broke down" the scale of the façade elements to articulate a more human scale. The building then is able to contribute to the character of the streetscape.

Compliance with Oak Park's Comprehensive Plan, continued
Envision Oak Park 2014

Goal 4.2.4 Support innovative building design and construction practices within the village and continue award program to recognize innovative design and the application of "green" building techniques.

The developer's Design Team has proposed that the development be designed under the LEED program. The target is for a LEED Silver rating. The building will feature a green roof, water saving faucets and toilets, energy efficient appliances, and Electric Vehicle charging stations in the garage.

Goal 4.3.1 Promote a mix of local commercial land uses throughout the community that support and respond to the needs of nearby residents.

As noted by the Applicant's Market Consultant, Tracy Cross, there is a demand for this type of newly constructed, elevator building with high level of security in Oak Park.

Goal 4.3.4 Encourage the growth of transit-oriented development (TOD) in order to provide greater access to local goods and services, expand the variety of housing options, and maximize transit, bicycle, and pedestrian access throughout the Village.

While the proposed Development is not in a TOD zone, the Development's proximity to the Rapid Transit Line does encourage the future residents to use mass transit for most commuting. It is worth noting that the property's Transit Score from the Web Application Walkscore.com is: **62 "Good Transit"**

Goal 4.4.1 Provide mixed-use development within the village to maximize the use of land, and to foster more compact, walkable, and vibrant neighborhoods.

The proposed development is not located in close proximity to a commercial district and Its neighbors to the east and to the west along Lake Street are non-commercial uses. Moreover, the need for retail in this location was not supported by stakeholders or business groups. Nevertheless, the proposed development contains a walk in Kiosk for a Bank ATM.

Additionally, while the proposed Development is primarily a residential use, future residents will help to patronize existing and future Oak Park businesses. By helping add to Oak Park's resident base, the Development, in a demonstrable way, assists Oak Park in attaining this Goal.

Compliance with Oak Park's Comprehensive Plan, continued
Envision Oak Park 2014

Goal 4.4.4 Create focus nodes of commercial activity in areas with high levels of accessibility along the village's commercial corridors, allowing other areas of the corridors to become more residential in nature.

Lake Street is a primary corridor in Oak Park. The intersection of Oak Park Avenue and Lake Street has the distinction of being the "center of Oak Park's commercial life, restaurant life and civic life. With the main branch of the Oak Park Library, Scoville Park and Unity Temple, this location in Oak Park is like no other. To bring a residential use, as the Applicant proposes, is to fully comply with this Goal.

Goal 7.3.4 Encourage housing variety in each neighborhood that responds to the specific needs of residents of various ages, incomes, and levels of mobility, especially in areas that provide unique access to transit, local goods and services, government services, recreation, etc.

In a very real sense, this development responds to the call for housing that addresses the needs of residents various ages, incomes, and levels of mobility. The development's barrier free designs cannot readily be found in many of Oak Park's housing stock – whether single family or multi-family. Therefore, the Development assists the Village in attaining this Goal.

12.1.2 Maintain the condition and capacity of village infrastructure and technology to ensure that it is suitable for all types of development.

The proposed Development will significantly add to the Village and the County's tax base compared to its current use. It is estimated that the real estate taxes for the property will increase from $36,000 paid in 2019 to $420,000 after the development has been completed and is operational. The increased taxes collected after offsetting for any impact, may be used by the Village and County to maintain the condition and capacity of Village infrastructure and technology to ensure that it is suitable for all types of development.

END OF STATEMENTS

EXHIBIT P

Neighborhood and Stakeholder Meeting Notes

As part of the Applicant and Developer's approval process, the following stake holders have identified:

1. The condominium association at 815 Lake Street
2. The Unity Temple Foundation
3. The Unity Temple Congregation
4. The Oak Park Library
5. The Park District of Oak Park

For a list of the presentation dates to the above listed stakeholders, their comments and questions, please see below:

Stakeholder Presentations

Oak Park, Park District
Contact: Jan Arnold **Thursday , July 23rd** **2 PM**

Questions + Comments:

Q: What is the setback to the East?

A: 6 feet, six inches

C: that appears to be tight.

R: we have moved the building as far to the west as possible.

Q: What is the height of the (proposed) building?

A: 74 feet

Q: What is the schedule?

A: We expect to take about 3-4 months in the approval process, then about 9 months in permitting with construction lasting about 18-20 moths and occupancy in 2023

Park District Presentation, continued

Q: Will the building cast shadows onto Scoville Park?

A: Only on limited days and limited times during those days. We don't believe the shadows will affect the trees at the Park.

Q: Can you send us the shadows studies you showed us?

A: Yes.

Q: What is your policy on dogs?

A: The building will be pet friendly.

Q: Since Scoville Park does not allow dogs, how will you manage that?

A: The building management we use is very proactive. We will inform all of our residents of the Park District policy and will monitor our residents so that they will behave as good neighbors. Moreover, we are considering adding a dog run at the rear of our building.

C: We think a dog run will be well received.

R: Thank you

C: Nice setback at the front of the building.

R: Thank you

C: Upper setback (at the sixth floor) of the building is good.

R: Thank you

C: Great green roof!

R: Thank you

Oak Park Public Library
Contact: David Seleb **Friday , July 24th** **11 AM**

Questions + Comments:

Q: What is the status of your plans?

A: We submitted a preliminary application to the Village of Oak Park. We will be submitting a final application for Plan Development the beginning of September.

Q: What is the schedule?

A: We expect to take about 3-4 months in the approval process, then about 9 months in permitting with construction lasting about 18-20 moths and occupancy in 2023

Q: How will traffic affect us (the library)?

A: The General Contractor has a logistics plan that they will submit to the Village. That plan has most of the construction traffic routed on North Boulevard.

Unity Temple Restoration Foundation
Contact: Heidi Ruehle Tuesday , August 18th 10 AM

Questions + Comments:

Q: What is the plan to manage trucks on Lake Street during construction?

A: (Showed the slide with the Construction Logistics Plan) Fortunately, we have full access to Lot 96 during construction and almost all of our traffic and deliveries will come from North Boulevard. All materials that cannot be store on site during construction will be stored on Lot 96.

Q: What impact will shadows (cast from your building) have on Unity Temple?

A: (Showed shadow study slides) We believe based on our virtual models that there will be no negative impact to the Unity Temple from shadows. Only on limited days will shadows from our building appear on Unity Temple. And, no shadows from our building will affect any window on Unity Temple.

Q: What is your policy on dogs?

A: The building will be dog friendly.

Q: Since Scoville Park does not allow dogs, how will you manage that?

A: The building management we use is very proactive. We will inform all of our residents of the Park District policy and will monitor our residents so that they will behave as good neighbors. Moreover, we are considering adding a dog run at the rear of our building.

Q: What is the schedule?

A: We expect to take about 3-4 months in the approval process, then about 9 months in permitting with construction lasting about 18-20 moths and occupancy in 2023

Q: What is a way to keep in communication?

A: We will set up a website where we will post construction schedule information and other relevant information regarding the development. We will also post a phone number monitored by a senior level construction person who will have the authority to take any necessary action on site related issues.

Unity Temple Restoration Foundation Presentation, continued

Q: How many residents are expected?

A: We expect to have approximately 140 residents

Unity Temple Congregation
Contact: Rev Alan Taylor Thursday , August 20th 7:00 PM

Questions + Comments:

Q: What is the height of the (proposed) building?
A: The building we are proposing is 6 stories tall and 74 feet tall.

Q: What relief in height are you seeking?
A: We are seeking relief of about 20 feet in height.

Q: What kind of foundation will the (proposed) building have?
A: The building construction type is slab-on-grade. This means that we are not planning for any basement or deep foundations. Our planned excavations will only go about 5-6 feet.

Q: Will you own the building, or will you flip it?
A: We plan to own and manage the building.

Q: Would you consider greenspace at the rear of the (proposed) building for pets to use?
A: Yes. We think that is a good idea.

Q: Will the building have ADA units?
A: Yes. We will meet the code requirement for accessible units.

Q: Where do you all live?
A: Tom Meador: I live in Lake Forest; Jay Keller: I live in Chicago; Mariano Mollo: I live in Forest Park; John Schiess: I live in California. But, until about two years ago, I have lived in the Oak Park area since 1964.

815 Lake Condominium Association Tuesday , July 28th 7 PM

Questions + Comments:

Q: What will be the status of the parking in Lot 96?
A: We are working with Village Staff on the disposition of any remaining spaces beyond what we will need for the building operations.

Q: What is the schedule?
A: We expect to take about 3-4 months in the approval process, then about 9 months in permitting with construction lasting about 18-20 moths and occupancy in 2023

Q: Will you add our building as insured to your policy in case there is damage to our building?
A: We will look into that. But we don't see a problem with that.

Q: What is the limit of 24-hour spaces at the Village Lot at Oak Park Avenue and North Boulevard?
A: We are not sure. We can ask the Village. You also can call the Parking Services Department at the Village.

C: Please be aware that persons hang out in the alley in what will be the back of your building.
R: Thank you. We will let our security advisor know so they can position cameras to monitor that.

815 Lake Condominium Association Presentation, continued

C: I am concerned about the two-way traffic in the alley (to the south).
R: We have set the building away from the alley and our two drives allow for cars to maneuver. Moreover, there are about 73 cars parked there today. So, we don't believe that the small increase in cars will have a significant negative impact on maneuverability in the alley.

C: I am concerned about the privacy for porches at the west side of our building.
Q: How many of your balconies face our building?
R: Four of the proposed balconies look east toward your building.

In addition to the stakeholder groups outlined above, the Applicant and Developer held a **Neighborhood Meeting**, as required by the PD Application process on **Wednesday, August 26, 2020 at 5:30 PM** via the Zoom platform.

The attendance list and a summary of comments and questions can be found below:

Neighborhood Meeting

Questions + Comments:

Q: What is the setback to the East?
A: 6 feet, 6 inches

Q: What is the setback from balcony to balcony (at East)?
A: 15 feet

Q: Do the balconies (on your building) overhang the side yard (setback)?
A: No

Q: What security measures are you planning for the area between buildings (at East)?
A: spaced lighting mounted to the building, security cameras and management oversight of the area

Q: What is the disposition of the tree near our balconies (at East)?
A: The tree overhangs the property line. So, our plan is to remove it.

Q: Are there any affordable units planned for inside the building?
A: Per the Affordable Housing Ordinance, the developer is electing the option to contribute $900,000 to the Oak Park Housing Fund.

Q: How many units are planned and are they for sale or rental?
A: The development proposes 84 apartment units. The units are for rent.

Neighborhood Meeting, continued

Q: How do you plan to manage the parking, waste and recycling?
A: The parking will be managed by the apartment manager. There will be an on-site manager and other staff. The waste and recycling are inside the building and will also be managed by the on-site manager

Q: How long will we (the residents of the 815 condominium building) be allowed to park in the US Bank lot?
A: After approvals and permits and about 2 months prior to construction, we will notify any person parking there that the lot will be fenced off.

Q: What steps are you taking to minimize vibrations during construction?
A: Given that the construction for the proposed building is slab-on-grade type, and that no deep foundations are required, there will be minimal vibrations from construction activities. Nevertheless, the builder will set up vibration monitoring systems on the adjacent buildings so as to monitor any vibrations.

Q: Can the Developer ask the builder to monitor our building (815 Lake Street) ?
A: Absolutely.

Q: Will the architect consider using red brick on the building so as to match our building (815 Lake Street) and that of the building to the west (between US Bank and Unity Temple)?
A: The color of materials was selected in collaboration with Wight and Company, the Village's design consultant. Moreover, we think the color proposed is appropriate.

Neighborhood Meeting, continued

Q: Can we see any of the other designs that were presented to Wight and Company?
A: At this point in the process, we don't see much value in that. We are following a process as outlined in the Plan Development ordinance by working in collaboration with Wight and Company on the design of the building.

Q: Is there a need for a fire lane between the two buildings (to the East)?
A: No. We met with the Fire Chief and Police Chief and confirmed that a fire lane is not required.

Q: What will happen to the parking spaces that will be displaced in Lot #13?
A: Our traffic and parking consultant has been working with the Village's Parking Services department so as to identify available parking spaces in the area.

Q: Can you move your building to the West?
A: We are as far west as possible without violating a building code setback that will allow us to place windows on the west face of our building. Further, we have placed our building closer to the building on the West than to the building on the East recognizing that there are porches on the East building.

Q: What plantings are being proposed in the space between your building and the building to the east? And, do you have an arborist?
A: There is an arborist consulting on the Landscape plan. We can send you the planting list.

Q: What will you do to mitigate rodents during construction?
A: The builder has a plan to mitigate for rodents prior to and during construction.

Neighborhood Meeting, continued

Q: Will you send us a copy of the recorded meeting?

A: Yes.

END

POLICY OF TITLE INSURANCE

ISSUED BY

First American Title Insurance Company of the Mid-West

SUBJECT TO THE EXCLUSIONS FROM COVERAGE, THE EXCEPTIONS FROM COVERAGE CONTAINED IN SCHEDULE B AND THE CONDITIONS AND STIPULATIONS, FIRST AMERICAN TITLE INSURANCE COMPANY OF THE MID-WEST, a Missouri corporation, herein called the Company, insures, as of Date of Policy shown in Schedule A, against loss or damage, not exceeding the Amount of Insurance stated in Schedule A, sustained or incurred by the insured by reason of:

1. Title to the estate or interest described in Schedule A being vested other than as stated therein;
2. Any defect in or lien or encumbrance on the title;
3. Unmarketability of the title;
4. Lack of a right of access to and from the land.

The Company will also pay the costs, attorneys' fees and expenses incurred in defense of the title, as insured, but only to the extent provided in the Conditions and Stipulations.

First American	ALTA Commitment for Title Insurance
Commitment	ISSUED BY **First American Title Insurance Company** File No: NCS-988056-3-CHI2

COMMITMENT FOR TITLE INSURANCE

Issued By
FIRST AMERICAN TITLE INSURANCE COMPANY
NOTICE

IMPORTANT-READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, ***First American Title Insurance Company***, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

First American Title Insurance Company

Jeffrey S. Robinson
Secretary

If this jacket was created electronically, it constitutes an original document.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

COMMITMENT CONDITIONS

1. DEFINITIONS

(a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
(b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
(c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
(d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
(e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
(f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
(g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
(h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:
(a) the Notice;
(b) the Commitment to Issue Policy;
(c) the Commitment Conditions;
(d) Schedule A;
(e) Schedule B, Part I—Requirements;
(f) Schedule B, Part II—Exceptions;

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

(a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
  (i) comply with the Schedule B, Part I—Requirements;
  (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
  (iii) acquire the Title or create the Mortgage covered by this Commitment.
(b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
(c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
(d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
(e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
(f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
(g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

(a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
(b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
(c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
(d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
(e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
(f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

The Policy contains an arbitration clause. All arbitrable matters when the Proposed Policy Amount is $2,000,000 or less shall be arbitrated at the option of either the Company or the Proposed Insured as the exclusive remedy of the parties. A Proposed Insured may review a copy of the arbitration rules at http://www.alta.org/arbitration.

SCHEDULE A

1. Commitment Date: October 25, 2019

2. Policy to be issued:
   (a) ☒ 2006 ALTA® Owner Policy
   Proposed Insured: To Be Furnished
   Proposed Policy Amount: $1,000.00
   (b) ☒ 2006 ALTA® Lender Policy
   Proposed Insured:To Be Furnished
   Proposed Policy Amount: $1,000.00

3. The estate or interest in the Title described or referred to in this Commitment and covered herein is Fee Simple and Title to the estate or interest in said Land is at the effective date hereof vested in:

   Chicago Title Land Trust Company, as successor Trustee to North Star Trust Company, as successor Trustee to Colonial Bank & Trust Company, as Trustee under trust agreement dated December 14, 1987 and known as Trust no. 1250

4. The Land referred to in this Commitment is described as follows:

   LOT 6 (EXCEPT THE EAST HALF THEREOF), ALL OF LOTS 7 AND 8 AND LOT 9 (EXCEPT THE WEST 15 FEET OF LOT 9) IN HOLLEY AND SMITH'S SUBDIVISION OF LOT 18 AND OF SUB LOTS 1 AND 2 IN SCOVILLE'S SUBDIVISION OF LOT 17 IN KETTLESTRING'S SUBDIVISION OF LAND IN THE SOUTHEAST CORNER OF THE NORTHWEST QUARTER OF SECTION 7, TOWNSHIP 39 NORTH, RANGE 13, EAST OF THE THIRD PRINCIPAL MERIDIAN, IN COOK COUNTY, ILLINOIS.

   THIS COMMITMENT IS VALID ONLY IF SCHEDULE B IS ATTACHED.

SCHEDULE B, PART I

Requirements

All of the following Requirements must be met:

1. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.

2. Pay the agreed amount for the estate or interest to be insured.

3. Pay the premiums, fees, and charges for the Policy to the Company.

4. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.

5. The Land covered by this Commitment is subject to the Predatory Lending Database Program (765 ILCS 77/70 et seq.). Effective July 1, 2008, valid Certificates of Compliance or Exception Issued in conformity with the act must be obtained at the time of closing in order to record any Mortgage. For additional information, go to https://www.ilapld.com/. Effective July 1, 2010, the counties affected are Cook, Will, Kane and Peoria.

6. The Land is located within Cook, DuPage, Grundy, Jackson, Kane, Kankakee, Lake, La Salle, Logan, McDonough, McLean, Madison, Marion, Ogle, Peoria, Rock Island, Sangamon, Tazewell, Whiteside, Winnebago or Woodford counties which use the MyDec system for the completion of the state and county transfer tax forms. As of January 1, 2016, The City of Chicago Transfer Tax declaration must be completed in the MyDec system. The form and instructions can be found at https://mytax.illinois.gov/MyDec/_/.

   Note: If the county is listed in MyDec, but the municipality is not, you may prepare your State and County Declaration with this site. However, you must contact the municipality for their current procedures and requirements.

7. We find no outstanding voluntary liens of record affecting subject property. Disclosure should be made concerning the existence of any unrecorded lien or other indebtedness which could give rise to any possible security interest in the subject property.

8. We should be furnished either (a) an affidavit from the owner indicating that there is no property manager employed; or (b) a final lien waiver from the property manager acting on behalf of the owner.

9. The land is located within the City of Chicago, and may be subject to:

(a) Section 200.1-2 of the Municipal Code requiring the City of Chicago Transfer Tax.

At the date of commitment, the real estate transfer tax rate is $3.75 per $500.00 of consideration charged to the Buyer (City) and $1.50 per $500.00 of consideration charged to the Seller (CTA).

(b) Section 185-46.3 of the Municipal Code requiring full payment certification for sewer and water charges.

Full payment certification should be applied for by submitting a fully completed and an executed Water Certification Form to the City of Chicago Water Department accompanied by a $50.00 application fee at least 30 days prior to closing.

As of January 1, 2016, The City of Chicago Transfer Tax declaration must be completed in the MyDec system. The form and instructions can be found at https://mytax.illinois.gov/MyDec/_/.

NOTE: Possible liabilities, interest and penalties due under Chapters 3-4 and 3-33 of the Municipal Code of Chicago regarding real property transfer taxes and the consequences of the failure or inability to record the deed vesting title in the grantee **within 5 business days after the date of closing** because of the nonexistence of appropriate water certification from the City of Chicago, including but not limited to, tax, penalties and interest imposed by the City of Chicago for purchase of municipal transfer stamps after the date of closing.

(c) Section 3-33-045 requiring a valid Certificate of Zoning Compliance.

A certificate of Zoning Compliance is required for residential property zoned for, or occupied by, buildings having 5 or fewer units (except if the building is a condominium, a co-op or a newly constructed dwelling to the initial occupant) The certificate may be obtained from the Department of Zoning, Room 905 of City Hall. The application for the Zoning Compliance Certificate should be submitted at least 30 days prior to closing with a $90.00 fee.

10. Relative to the deletion of Standard Exceptions 1 through 5, we should be furnished the following:

1) A sworn statement disclosing all parties in possession of the land, including parties in possession under unrecorded leases and the terms and provisions thereof; options; and unrecorded contracts to purchase the land.

2) A current survey of the land, properly certified to the Company, made in accordance with (i) the accuracy requirements of a survey pursuant to the 'Minimum Standard Detail Requirements for Land Title Surveys' Jointly Established and Adopted by the American Land Title Association and American Congress on Survey and Mapping; and (ii) the Laws of the State of Illinois.

3) An ALTA Extended Coverage Policy Statement. If new construction has taken place within the last six months, the following should be produced: Satisfactory evidence of the payment in full of the cost of furnishing services, labor and materials in connection with any improvements made on the land within six months of the date of this commitment. This evidence should consist of sworn contractors' and subcontractors' affidavits, together with all necessary waivers of lien.

11. Terms, powers, provisions and limitations of the Trust under which title to said land is held.

12. Submit proof satisfactory to the Company of completion of improvements, including tenant improvements, and satisfactory evidence that all contracts for labor, materials and services have been paid in full.

SCHEDULE B, PART II

Exceptions

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

Part One:

1. Rights or claims of parties in possession not shown by the Public Records.

2. Easements or claims of easements, not shown by Public Records.

3. Any encroachments, encumbrance, violation, variation or adverse circumstance affecting Title that would be disclosed by an accurate and complete survey of the Land pursuant to the "Minimum Standards of Practice," 68 Ill. Admin Code, Sec. 1270.56(b)(6)(P) for residential property or the ALTA/NSPS land title survey standards for commercial/industrial property.

4. Any lien or right to a lien for services, labor, material or equipment, unless such lien is shown by the Public Records at Date of Policy and not otherwise excepted from coverage herein.

5. Taxes, or special assessments, if any, not shown as existing liens by the Public Records.

6. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.

SCHEDULE B, PART II (Continued)

Exceptions (Continued)

Part Two:

1. General real estate taxes for the year(s) 2019 and subsequent years.

   The first installment of the 2018 taxes in the amount of $15,345.18 is Paid.

   The final installment of the 2018 taxes in the amount of $13,180.31 is Paid.

   The 2019 taxes are not yet ascertainable or payable.

   Permanent Index Number: 16-07-129-013-0000 Vol. 141

   If applicable, an original tax bill must be presented if taxes are to be paid at time of closing.

   (Affects West 40 feet of Lot 8 and East 35 feet of Lot 9)

2. General real estate taxes for the year(s) 2019 and subsequent years.

   The first installment of the 2018 taxes in the amount of $17,244.85 is Paid.

   The final installment of the 2018 taxes in the amount of $14,812.04 is Paid.

   The 2019 taxes are not yet ascertainable or payable.

   Permanent Index Number: 16-07-129-014-0000 Vol. 141

   If applicable, an original tax bill must be presented if taxes are to be paid at time of closing.

   (Affects Lot 6 (Except East half), Lot 7 and East 10 feet of Lot 8)

3. Terms, provisions and conditions contained in Lease by and between Chicago Title Land Trust Company, not individually but solely as successor Trustee to North Star Trust Company, not individually but solely as successor Trustee to Colonial Bank & Trust Company under a certain Trust Agreement dated the 14th day of December, 1987, and known as Trust No. 1250, Lessor, and U.S. Bank National Association, the successor in interest to First Colonial Bankshare Corporation, Lessee, dated December 1, 2012 as disclosed by a Memorandum of Lease recorded December 18, 2012 as

document 1235316015, and all rights thereunder of and all acts done and suffered thereunder of said lessee or any parties claiming by, through or under said lessee.

Note : Said lease is for a term of years ending on January 31, 2023.

Note : Said lease provides for two (2) consecutive periods of ten (10) years each.

Affects: The land and other property.

4. Existing unrecorded leases, if any, and rights of all parties claiming thereunder.

First American	ALTA Commitment for Title Insurance
Commitment	ISSUED BY **First American Title Insurance Company** File No: NCS-988056-2-CHI2

COMMITMENT FOR TITLE INSURANCE

Issued By
FIRST AMERICAN TITLE INSURANCE COMPANY
NOTICE

IMPORTANT-READ CAREFULLY: THIS COMMITMENT IS AN OFFER TO ISSUE ONE OR MORE TITLE INSURANCE POLICIES. ALL CLAIMS OR REMEDIES SOUGHT AGAINST THE COMPANY INVOLVING THE CONTENT OF THIS COMMITMENT OR THE POLICY MUST BE BASED SOLELY IN CONTRACT.

THIS COMMITMENT IS NOT AN ABSTRACT OF TITLE, REPORT OF THE CONDITION OF TITLE, LEGAL OPINION, OPINION OF TITLE, OR OTHER REPRESENTATION OF THE STATUS OF TITLE. THE PROCEDURES USED BY THE COMPANY TO DETERMINE INSURABILITY OF THE TITLE, INCLUDING ANY SEARCH AND EXAMINATION, ARE PROPRIETARY TO THE COMPANY, WERE PERFORMED SOLELY FOR THE BENEFIT OF THE COMPANY, AND CREATE NO EXTRACONTRACTUAL LIABILITY TO ANY PERSON, INCLUDING A PROPOSED INSURED.

THE COMPANY'S OBLIGATION UNDER THIS COMMITMENT IS TO ISSUE A POLICY TO A PROPOSED INSURED IDENTIFIED IN SCHEDULE A IN ACCORDANCE WITH THE TERMS AND PROVISIONS OF THIS COMMITMENT. THE COMPANY HAS NO LIABILITY OR OBLIGATION INVOLVING THE CONTENT OF THIS COMMITMENT TO ANY OTHER PERSON.

COMMITMENT TO ISSUE POLICY

Subject to the Notice; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and the Commitment Conditions, ***First American Title Insurance Company***, a Nebraska Corporation (the "Company"), commits to issue the Policy according to the terms and provisions of this Commitment. This Commitment is effective as of the Commitment Date shown in Schedule A for each Policy described in Schedule A, only when the Company has entered in Schedule A both the specified dollar amount as the Proposed Policy Amount and the name of the Proposed Insured.

If all of the Schedule B, Part I-Requirements have not been met within six months after the Commitment Date, this Commitment terminates and the Company's liability and obligation end.

First American Title Insurance Company

Secretary

If this jacket was created electronically, it constitutes an original document.

This page is only a part of a 2016 ALTA® Commitment for Title Insurance issued by First American Title Insurance Company. This Commitment is not valid without the Notice; the Commitment to Issue Policy; the Commitment Conditions; Schedule A; Schedule B, Part I-Requirements; Schedule B, Part II-Exceptions; and a counter-signature by the Company or its issuing agent that may be in electronic form.

COMMITMENT CONDITIONS

1. DEFINITIONS

(a) "Knowledge" or "Known": Actual or imputed knowledge, but not constructive notice imparted by the Public Records.
(b) "Land": The land described in Schedule A and affixed improvements that by law constitute real property. The term "Land" does not include any property beyond the lines of the area described in Schedule A, nor any right, title, interest, estate, or easement in abutting streets, roads, avenues, alleys, lanes, ways, or waterways, but this does not modify or limit the extent that a right of access to and from the Land is to be insured by the Policy.
(c) "Mortgage": A mortgage, deed of trust, or other security instrument, including one evidenced by electronic means authorized by law.
(d) "Policy": Each contract of title insurance, in a form adopted by the American Land Title Association, issued or to be issued by the Company pursuant to this Commitment.
(e) "Proposed Insured": Each person identified in Schedule A as the Proposed Insured of each Policy to be issued pursuant to this Commitment.
(f) "Proposed Policy Amount": Each dollar amount specified in Schedule A as the Proposed Policy Amount of each Policy to be issued pursuant to this Commitment.
(g) "Public Records": Records established under state statutes at the Commitment Date for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without Knowledge.
(h) "Title": The estate or interest described in Schedule A.

2. If all of the Schedule B, Part I—Requirements have not been met within the time period specified in the Commitment to Issue Policy, this Commitment terminates and the Company's liability and obligation end.

3. The Company's liability and obligation is limited by and this Commitment is not valid without:
(a) the Notice;
(b) the Commitment to Issue Policy;
(c) the Commitment Conditions;
(d) Schedule A;
(e) Schedule B, Part I—Requirements;
(f) Schedule B, Part II—Exceptions;

4. COMPANY'S RIGHT TO AMEND

The Company may amend this Commitment at any time. If the Company amends this Commitment to add a defect, lien, encumbrance, adverse claim, or other matter recorded in the Public Records prior to the Commitment Date, any liability of the Company is limited by Commitment Condition 5. The Company shall not be liable for any other amendment to this Commitment.

5. LIMITATIONS OF LIABILITY

(a) The Company's liability under Commitment Condition 4 is limited to the Proposed Insured's actual expense incurred in the interval between the Company's delivery to the Proposed Insured of the Commitment and the delivery of the amended Commitment, resulting from the Proposed Insured's good faith reliance to:
  (i) comply with the Schedule B, Part I—Requirements;
  (ii) eliminate, with the Company's written consent, any Schedule B, Part II—Exceptions; or
  (iii) acquire the Title or create the Mortgage covered by this Commitment.
(b) The Company shall not be liable under Commitment Condition 5(a) if the Proposed Insured requested the amendment or had Knowledge of the matter and did not notify the Company about it in writing.
(c) The Company will only have liability under Commitment Condition 4 if the Proposed Insured would not have incurred the expense had the Commitment included the added matter when the Commitment was first delivered to the Proposed Insured.
(d) The Company's liability shall not exceed the lesser of the Proposed Insured's actual expense incurred in good faith and described in Commitment Conditions 5(a)(i) through 5(a)(iii) or the Proposed Policy Amount.
(e) The Company shall not be liable for the content of the Transaction Identification Data, if any.
(f) In no event shall the Company be obligated to issue the Policy referred to in this Commitment unless all of the Schedule B, Part I—Requirements have been met to the satisfaction of the Company.
(g) In any event, the Company's liability is limited by the terms and provisions of the Policy.

6. LIABILITY OF THE COMPANY MUST BE BASED ON THIS COMMITMENT

(a) Only a Proposed Insured identified in Schedule A, and no other person, may make a claim under this Commitment.
(b) Any claim must be based in contract and must be restricted solely to the terms and provisions of this Commitment.
(c) Until the Policy is issued, this Commitment, as last revised, is the exclusive and entire agreement between the parties with respect to the subject matter of this Commitment and supersedes all prior commitment negotiations, representations, and proposals of any kind, whether written or oral, express or implied, relating to the subject matter of this Commitment.
(d) The deletion or modification of any Schedule B, Part II—Exception does not constitute an agreement or obligation to provide coverage beyond the terms and provisions of this Commitment or the Policy.
(e) Any amendment or endorsement to this Commitment must be in writing and authenticated by a person authorized by the Company.
(f) When the Policy is issued, all liability and obligation under this Commitment will end and the Company's only liability will be under the Policy.

7. IF THIS COMMITMENT HAS BEEN ISSUED BY AN ISSUING AGENT

The issuing agent is the Company's agent only for the limited purpose of issuing title insurance commitments and policies. The issuing agent is not the Company's agent for the purpose of providing closing or settlement services.

8. PRO-FORMA POLICY

The Company may provide, at the request of a Proposed Insured, a pro-forma policy illustrating the coverage that the Company may provide. A pro-forma policy neither reflects the status of Title at the time that the pro-forma policy is delivered to a Proposed Insured, nor is it a commitment to insure.

9. ARBITRATION

The Policy contains an arbitration clause. All arbitrable matters when the Proposed Policy Amount is $2,000,000 or less shall be arbitrated at the option of either the Company or the Proposed Insured as the exclusive remedy of the parties. A Proposed Insured may review a copy of the arbitration rules at http://www.alta.org/arbitration.

SCHEDULE A

1. Commitment Date: October 25, 2019

2. Policy to be issued:
   (a) ☒ 2006 ALTA® Owner Policy
   Proposed Insured: To be Furnished
   Proposed Policy Amount: $1,000.00
   (b) ☒ 2006 ALTA® Lender Policy
   Proposed Insured:To be Furnished
   Proposed Policy Amount: $1,000.00

3. The estate or interest in the Title described or referred to in this Commitment and covered herein is Fee Simple and Title to the estate or interest in said Land is at the effective date hereof vested in:

   Chicago Title Land Trust Company, as successor Trustee to North Star Trust Company, as successor Trustee to Colonial Bank & Trust Company, as Trustee under trust agreement dated December 14, 1987 and known as Trust no. 1250

4. The Land referred to in this Commitment is described as follows:

   LOT 17 IN HOLLEY AND SMITHS SUBDIVISION OF LOT 18 AND LOTS 1 AND 2 IN J.W. SCOVILLES SUBDIVISION OF LOT 17 IN KETTLESTRINGS SUBDIVISION OF LAND IN SOUTH EAST CORNER OF THE NORTH WEST 1/4 OF SECTION 7, TOWNSHIP 39 NORTH, RANGE 13, EAST OF THE THIRD PRINCIPAL MERIDIAN, IN COOK COUNTY, ILLINOIS.

   THIS COMMITMENT IS VALID ONLY IF SCHEDULE B IS ATTACHED.

SCHEDULE B, PART I

Requirements

All of the following Requirements must be met:

1. The Proposed Insured must notify the Company in writing of the name of any party not referred to in this Commitment who will obtain an interest in the Land or who will make a loan on the Land. The Company may then make additional Requirements or Exceptions.

2. Pay the agreed amount for the estate or interest to be insured.

3. Pay the premiums, fees, and charges for the Policy to the Company.

4. Documents satisfactory to the Company that convey the Title or create the Mortgage to be insured, or both, must be properly authorized, executed, delivered, and recorded in the Public Records.

5. The Land covered by this Commitment is subject to the Predatory Lending Database Program (765 ILCS 77/70 et seq.). Effective July 1, 2008, valid Certificates of Compliance or Exception Issued in conformity with the act must be obtained at the time of closing in order to record any Mortgage. For additional information, go to https://www.ilapld.com/. Effective July 1, 2010, the counties affected are Cook, Will, Kane and Peoria.

6. The Land is located within Cook, DuPage, Grundy, Jackson, Kane, Kankakee, Lake, La Salle, Logan, McDonough, McLean, Madison, Marion, Ogle, Peoria, Rock Island, Sangamon, Tazewell, Whiteside, Winnebago or Woodford counties which use the MyDec system for the completion of the state and county transfer tax forms. As of January 1, 2016, The City of Chicago Transfer Tax declaration must be completed in the MyDec system. The form and instructions can be found at https://mytax.illinois.gov/MyDec/_/.

   Note: If the county is listed in MyDec, but the municipality is not, you may prepare your State and County Declaration with this site. However, you must contact the municipality for their current procedures and requirements.

7. We find no outstanding voluntary liens of record affecting subject property. Disclosure should be made concerning the existence of any unrecorded lien or other indebtedness which could give rise to any possible security interest in the subject property.

8. We should be furnished either (a) an affidavit from the owner indicating that there is no property manager employed; or (b) a final lien waiver from the property manager acting on behalf of the owner.

9. The municipality imposes certain requirements at the time of conveyance. Contact (708) 383-6400 / www.oak-park.us at Oak Park prior to closing for its specific requirements, which may include the payment of the final water bill, other fees, an inspection or other approvals.

10. Relative to the deletion of Standard Exceptions 1 through 5, we should be furnished the following:

    1) A sworn statement disclosing all parties in possession of the land, including parties in possession under unrecorded leases and the terms and provisions thereof; options; and unrecorded contracts to purchase the land.

    2) A current survey of the land, properly certified to the Company, made in accordance with (i) the accuracy requirements of a survey pursuant to the 'Minimum Standard Detail Requirements for Land Title Surveys' Jointly Established and Adopted by the American Land Title Association and American Congress on Survey and Mapping; and (ii) the Laws of the State of Illinois.

    3) An ALTA Extended Coverage Policy Statement. If new construction has taken place within the last six months, the following should be produced: Satisfactory evidence of the payment in full of the cost of furnishing services, labor and materials in connection with any improvements made on the land within six months of the date of this commitment. This evidence should consist of sworn contractors' and subcontractors' affidavits, together with all necessary waivers of lien.

11. Terms, powers, provisions and limitations of the Trust under which title to said land is held.

12. Submit proof satisfactory to the Company of completion of improvements, including tenant improvements, and satisfactory evidence that all contracts for labor, materials and services have been paid in full.

SCHEDULE B, PART II

Exceptions

THIS COMMITMENT DOES NOT REPUBLISH ANY COVENANT, CONDITION, RESTRICTION, OR LIMITATION CONTAINED IN ANY DOCUMENT REFERRED TO IN THIS COMMITMENT TO THE EXTENT THAT THE SPECIFIC COVENANT, CONDITION, RESTRICTION, OR LIMITATION VIOLATES STATE OR FEDERAL LAW BASED ON RACE, COLOR, RELIGION, SEX, SEXUAL ORIENTATION, GENDER IDENTITY, HANDICAP, FAMILIAL STATUS, OR NATIONAL ORIGIN.

The Policy will not insure against loss or damage resulting from the terms and provisions of any lease or easement identified in Schedule A, and will include the following Exceptions unless cleared to the satisfaction of the Company:

Part One:

1. Rights or claims of parties in possession not shown by the Public Records.

2. Easements or claims of easements, not shown by Public Records.

3. Any encroachments, encumbrance, violation, variation or adverse circumstance affecting Title that would be disclosed by an accurate and complete survey of the Land pursuant to the "Minimum Standards of Practice," 68 Ill. Admin Code, Sec. 1270.56(b)(6)(P) for residential property or the ALTA/NSPS land title survey standards for commercial/industrial property.

4. Any lien or right to a lien for services, labor, material or equipment, unless such lien is shown by the Public Records at Date of Policy and not otherwise excepted from coverage herein.

5. Taxes, or special assessments, if any, not shown as existing liens by the Public Records.

6. Any defect, lien, encumbrance, adverse claim, or other matter that appears for the first time in the Public Records or is created, attaches, or is disclosed between the Commitment Date and the date on which all of the Schedule B, Part I-Requirements are met.

SCHEDULE B, PART II (Continued)

Exceptions (Continued)

Part Two:

1. General real estate taxes for the year(s) 2019 and subsequent years.

   The first installment of the 2018 taxes in the amount of $8,083.07 is Paid.

   The final installment of the 2018 taxes in the amount of $6,942.86 is Paid.

   The 2019 taxes are not yet ascertainable or payable.

   Permanent Index Number: 16-07-129-020-0000 Vol. 141

   If applicable, an original tax bill must be presented if taxes are to be paid at time of closing.

2. Terms, provisions and conditions contained in Lease by and between Chicago Title Land Trust Company, not individually but solely as successor Trustee to North Star Trust Company, not individually but solely as successor Trustee to Colonial Bank & Trust Company under a certain Trust Agreement dated the 14th day of December, 1987, and known as Trust No. 1250, Lessor, and U.S. Bank National Association, Lessee, dated December 1, 2012 as disclosed by a This Memorandum of Lease recorded December 18, 2012 as document 1235316015, and all rights thereunder of and all acts done and suffered thereunder of said lessee or any parties claiming by, through or under said lessee.

   Note: Said Lease term end on January 31, 2023.

   Note: Said Lease term has option to extend the term for two (2) consecutive periods of ten (10) years each.

   Affects: The land and other property.

3. Existing unrecorded leases, if any, and rights of all parties claiming thereunder.

End of Schedule B las

EXHIBIT S

Parking Lot 96 Calculation of Value

The Applicant hereby submits this Estimate of Value based on documentation provided to the Applicant by the Village of Oak Park Staff.

Number of parking spaces made available to the public will be 16

The Applicant and the Developer will not collect any fees, licenses or any other revenue for the 16 spaces for five years.

The Village of Oak Park documented revenue in Lot 96 for 2019 at an average of $220 per space, per quarter for permit parking in Lot 96 for the combination of Day Permits, Night Permits and 24-hour Permits with a yearly income of $880 per space per year. See the Village of Oak Park Chart below.

Since there are 16 spaces with an income of $880 per space, per year, the total yearly revenue is $14,080.

For a 5-year period, the calculated amount for the donation is therefore **$70,400**

Data Chart received from the Village of Oak Park on 8.31.20

LOTS IN HIGH DEMAND AREAS (55, 59, 96, SB10)

Resident (per quarter)		Non-resident (per quarter)		Renewal Dates	
Day Permit	$227	Day Permit	$282 (plus $16.92 county tax)	1st Quarter	01/01 - 03/31
Night Permit	$177	Night Permit	$197	2nd Quarter	04/01 - 06/30
24-Hour Permit	$257	24-hour Permit	$332 (plus $19.92 county tax)	3rd Quarter	07/01 - 09/30

Proposed Sidewalk Easement for 815 Lake Condominiums

This area intentionally left blank
(refer to following pages for exhibit information)

PREPARED BY AND UPON RECORDING, RETURN TO:
Katten Muchin Rosenman LLP
525 W. Monroe Street
Chicago, IL 60661
Attn: Tim Cross

(The Above Space for Recorder's Use Only)

SIDEWALK EASEMENT AGREEMENT

This Sidewalk Easement Agreement ("**Agreement**") is executed as of _____, 20__, by and between Oak Park Land II, LLC, a Delaware limited liability company ("**Grantor**"), and [The Courtland Condominium Association, an Illinois not-for-profit corporation] ("**Grantee**").

RECITALS

A. Grantor is the fee owner of that certain improved real property (the "**Grantor Parcel**") located in the Village of Oak Park, Cook County, Illinois, and more particularly described on **Exhibit A** attached hereto.

B. Grantee is the homeowners' association representing the owners (the "**Unit Owners**") of condominium units in the condominium development known as the [Courtland Condominiums] certain real property located immediately adjacent to the Grantor Parcel in the Village of Oak Park, Cook County, Illinois, and more particularly described on **Exhibit B** attached hereto (the "**Grantee Parcel**").

C. Grantor has agreed to grant to Grantee certain non-exclusive rights over that certain sidewalk located on the Grantor Parcel and as visually depicted on **Exhibit C** attached hereto (the "**Sidewalk**") upon the terms and conditions set forth herein.

AGREEMENT

NOW, THEREFORE, in consideration of the mutual covenants and conditions hereinafter set forth, the above recitals which are by this reference incorporated herein, the sum of TEN DOLLARS ($10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Definitions.

For the purposes of this Agreement (including the recitals above), reference to the following defined terms shall have the meanings set forth in this Section 1 below unless otherwise provided or qualified in any other article in this Agreement:

(a) "**Parcels**" shall mean, collectively, the Grantee Parcel and the Grantor Parcel, and each may be referred to herein generically as a "**Parcel**".

(b) "**Permittee**" shall mean Grantee, any Unit Owner, and any, agent, contractor, vendor, supplier, visitor, invitee, guest, licensee, assignee, subtenant, and concessionaire of a Unit Owner.

2. Easement. Grantor hereby grants and conveys to Grantee, for the benefit of Grantee, other Permittees and the Grantee Parcel, a perpetual, non-exclusive easement over the Sidewalk for purposes of pedestrian ingress, and egress, so as to provide pedestrian access from Lake Street through and over the Sidewalk to the Grantee Parcel (the "**Sidewalk Easement**").

3. Reservations. The Sidewalk Easement shall be subject to the following reservations and agreements:

a. Grantee shall not, in any manner, block, obstruct, or encumber access or free passage upon or along any part of the Sidewalk or otherwise use the Sidewalk Easement in such a manner so as to obstruct or unreasonably interfere with Grantor's use and enjoyment of Grantor's Parcel. Without limiting the foregoing, in no event shall the Sidewalk Easement be used for any commercial purposes, deliveries or construction traffic;

b. Grantor reserves the right to, from time to time, impose reasonable rules and regulations governing the use of the Sidewalk Easement by Grantee and other Permittees, provided that such rules and regulations do not unreasonably, materially and adversely interfere with the use of the easement granted to Grantee herein;

c. Grantor reserves the right to, from time to time, close off or otherwise restrict the use of all or any portion(s) of the Sidewalk to perform any cleaning, maintenance, repairs, construction or other activities deemed necessary or prudent by Grantor in Grantor's sole discretion;

d. Grantor reserves the right to relocate the Sidewalk as deemed necessary in Grantor's sole discretion, so long as such relocation continues to provide for pedestrian access from Lake Street through and over the Sidewalk to the Grantee Parcel; and

e. Grantor and Grantee acknowledge that the Sidewalk Easement granted herein is a non-exclusive easement, and Grantor reserves for itself, and its successors and assigns, the use and enjoyment of the Sidewalk for all lawful purposes, including, without limitation, the right to grant further easements on, over and across the Sidewalk, provided that any such use by Grantor or its successors and assigns, shall not materially and adversely interfere with the easement granted to Grantee herein.

4. Insurance. Grantee shall obtain, maintain and keep in force, or cause to be obtained, maintained and kept in force, for the period commencing upon the date hereof and continuing thereafter during the term of this Agreement, commercial general liability insurance endorsed for broad term all risk coverage against claims for personal injury, death, or property damage occurring upon, in or about the Sidewalk, and Grantor's Parcel in the amounts of [$2,000,000.00] for single limit coverage for bodily or personal injury or death and for property damage arising out of any one occurrence and [$5,000,000.00] umbrella coverage in the aggregate. Such amounts shall be increased over time to maintain comparable coverage amounts as dollar values erode with inflation or if reasonably required under then prevailing industry standards. Grantee will deliver Grantor upon written request a certificate of insurance and endorsement evidencing the insurance required to be carried hereunder.

5. Mutual Indemnity. Grantor and Grantee hereby agree to indemnify and hold harmless the other party from and against any and all costs, damages, claims, liens, judgments, liabilities or expenses (including, without limitation, reasonable attorneys' fees) resulting or in any way arising from each of Grantor's and Grantee's use of the Sidewalk, or the use of each of their respective officers, agents, representatives, employees, contractors, customers, utility suppliers, licensees and/or invitees, except as may result from the negligence or intentional misconduct of such party being indemnified. Without limiting the foregoing, if any repair, maintenance or replacement of the Grantor Parcel is required as a result of the use of the Sidewalk by Grantee or any other Permittee, Grantee shall be solely responsible for the cost to complete such repair, maintenance or replacement and shall reimburse Grantor for such costs within ten (10) days of written demand.

6. Representations and Warranties. As of the date of this Agreement, each party hereby represents, warrants and covenants to the other party that this Agreement has been duly authorized, executed and delivered by such party and constitutes the valid, legal and binding agreements and obligations of such party enforceable against such party in accordance with the terms hereof.

7. Termination. In the event that either (a) the Grantee Parcel no longer contains the currently constructed multi-unit residential improvements requiring the Sidewalk Easement, or (b) the Grantee Parcel is no longer owned as a residential condominium building, then (i) the Sidewalk Easement shall automatically and immediately terminate , and (ii) the effectiveness of such termination shall require no further action on the part of Grantor or Grantee. For the purposes of formal documentation and clarity in the chain of title, upon the termination of the Sidewalk Easement, Grantor and Grantee shall execute a recordable easement termination agreement to be promptly recorded in the real property records of Cook County, Illinois, which obligations shall survive termination of this Agreement.

8. No Dedication. Notwithstanding anything herein to the contrary, nothing contained in this Agreement shall be deemed to be a gift or dedication of any portion of the Grantor Parcel to the general public or for any public purpose whatsoever.

9. No Third Party Beneficiary. This Agreement (a) is solely for the benefit of Grantor, Grantee and Grantor's permitted successors and assigns, and (b) shall not be deemed to have conferred any rights, express or implied, upon any third person. No other person or entity

is entitled to the benefit or may enforce any of the provisions of this Agreement. Permittees who are not Grantee are not intended third-party beneficiaries of this Agreement, it being understood and agreed that references to use of the Sidewalk Easement by Permittees are for the benefit of Grantee and may not be directly enforced by any Permittee that is not Grantee.

10. Applicable Law. This Agreement shall be governed by and construed in accordance with the laws of the State of Illinois.

11. Severability. In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provision hereof, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

12. Multiple Counterparts; Recording. To facilitate execution, this instrument may be executed in as many counterparts as may be convenient or required. All counterparts shall collectively constitute a single instrument. Any signature page to any counterpart may be detached from such counterpart without impairing the legal effect of the signatures thereon and thereafter attached to another counterpart identical thereto except having attached to it additional signature pages. This Agreement shall be recorded in the real property records of Cook County, Illinois.

13. Running of Benefits and Burdens. The terms of this Agreement are binding upon and shall inure to the benefit of, or burden to, Grantor and Grantee as the owners of the Grantor Parcel and the Grantee Parcel, respectively, and their successors and assigns, and shall be covenants running with the land. Any party may freely convey its Parcel hereunder.

14. Notices. All notices or other communications required or permitted hereunder shall be in writing, and shall be personally delivered or sent by overnight air express service or by registered or certified mail, postage prepaid, return receipt requested, or by E-mail, addressed to the parties hereto at their respective addresses set forth below. Such notice or other communication shall be deemed given (a) upon receipt or upon refusal to accept delivery if delivered by personal delivery; (b) one (1) business day after tendering to an overnight air express service; (c) five (5) business days after mailing if by registered or certified mail; or (d) the same day as delivery if by E-mail if delivered prior to 5:00pm Central on such day.

Chicago, Illinois 60607
Attn: Thomas Meador
E-mail: tom@mavegroup.com

Notice of change of address shall be given by written notice in the manner detailed in this Section.

15. Entire Agreement. This Agreement, including the exhibits hereto, constitutes the entire agreement of the parties with respect to the subject matter hereof, and supersedes all previous oral and written (and all contemporaneous oral) negotiations, commitments, agreements, and understandings relating hereto. Grantor and its respective successors and assigns in and to any part of or interest in the Sidewalk, and Grantee and its respective successors and assigns in and to the Sidewalk, shall have the right to compel performance of other terms and provisions of this Agreement by suit for specific performance or mandatory injunction and the further right to restrain or enjoin any threatened or continuing violation of the terms of this Agreement. The right herein granted to seek and obtain injunctive relief or specific performance shall not preclude an aggrieved party from recovering any damages sustained by it by reason of breach of any of the covenants and agreements herein and shall not preclude such party from seeking and obtaining any other remedy or relief afforded by the terms of this Agreement or by law for breach of the covenants and agreements herein contained. In any such action seeking injunctive relief and/or specific performance and/or damages or violation hereof, the prevailing party or parties shall be entitled to recover from the party not prevailing all reasonable expenses incurred by the prevailing party, including reasonable attorneys' fees.

[*signature pages follow*]

IN WITNESS WHEREOF, the Grantor and Grantee have executed this Agreement as of the date first written above.

Re: 835 Lake Street Place Planned Development
Impact to Village of Oak Park Water and Sewer Utilities

Dear Mr. Keller:

The Engineering Division has reviewed the application request for a Planned Development at 835 Lake Street for impacts to the Village's water distribution network and the combined sewer system.

The proposed development does not create any adverse impacts to the water distribution system. The Village's water distribution has adequate capacity to supply drinking water and fire protection to the proposed development.

The proposed development does not create any adverse impacts to the sewer collection systems and actually reduces the burden on the Village's combined sewer system. The existing site is about 80% impervious with and existing bank and parking lot with no storm water management. The proposed development will increase the amount of impervious area slightly to about 88% but is required to include storm water volume controls for the first 1-inch of rain (equivalent to 2,747 cubic feet of water) per the Metropolitan Water Reclamation District's requirements. The development will manage this storm water by retaining it in underground pipes and an infiltration trench. This will reduce the burden on the Village's sewer system as compared to the existing conditions.

Sincerely,

Bill McKenna, PE
Village Engineer

UNITY TEMPLE
RESTORATION FOUNDATION
A UNESCO WORLD HERITAGE SITE

14 September 2020

Michigan Avenue Real Estate Group
Attn: Tom Meador

Re: 835 Lake Street Development

Dear Mr. Meador:

This is in reference to the presentation given to the Unity Temple Restoration Foundation (UTRF) board of directors on August 18, 2020, regarding the proposed residential development at 835 Lake Street, Oak Park. It is the mission of UTRF to restore and preserve Unity Temple, a National Historic Landmark and part of a UNESCO World Heritage site, and advocate for the safety of Frank Lloyd Wright's modern masterpiece.

UTRF appreciates the opportunity to comment on this proposal. In general, UTRF does not take exception to the proposed development as presented at this time. According to the presentation, it does not appear to create significant additional shadows, and the height and massing is in scale to the surrounding buildings.

As discussed in August, UTRF requests a wireless vibration monitoring device on site during construction to mitigate any damage to Unity Temple. UTRF would want to maintain open communications with building management should any adverse situations arise that might affect Unity Temple during or post-construction, as well as engaging and welcoming new residents.

Please do not hesitate to contact me with any questions.

Best regards,

Heidi Ruehle

DRAFT

MEMORANDUM

To:	Craig M. Failor – Oak Park Village Planner
From:	Floyd D. Anderson, AIA & Rich Van Zeyl, AIA
Date:	9/24/2020
Subject:	835 Lake Street
PD #:	PL202000030
Developer:	Michigan Avenue Real Estate Group
Architect:	Space Architects

The purpose of this memo is to review the proposed Planned Development at 835 Lake Street, a six-story apartment building with 84 units and 88 parking spaces. Wight met with Space Architects starting in early March 2020 and reviewed several design iterations over the next several months prior to the PD submittal. The primary focus of the discussions was on materiality, detailing, and landscaping, as the basic massing of the project did not change from the original sketches.

GENERAL COMMENTS

The style of the architecture for the development is characterized as contemporary, with the primary feature being the strong, continuous horizontal bands at each floor line. Between each horizontal are floor to ceiling windows and a staggered pattern of vertical elements that define the balconies. The materials are a combination of metal panel and faux wood composite panels at the upper floors, and long format brick with stone accents at the ground floor, which all work well together. The ground floor plan has been arranged to place the lobby, fitness center, leasing office, and small ATM retail space along Lake Street to activate the streetscape and avoid views into the parking garage.

CONCLUSION

We support this project because we feel the scale and massing is appropriately scaled for its location on Lake Street and proximity to important Oak Park landmarks like Unity Temple and the library. The building was set back along Lake Street to align with the apartment buildings on either side, resulting in a consistent street wall and generous landscaped area in front of the building. The detailing allows for the major horizontal elements to run through across the building and cast deep shadows on the façade, which was intended to be a contemporary interpretation of the strong horizontals seen in other

DRAFT

buildings throughout Oak Park. The material palette of champagne colored metal panels, wood and glass will have a warm feel, appropriate for a residential building.

Re: 835 Lake Street Development

Dear Mr. Failor,

After reviewing the proposed development plans for the property at 835 Lake Street; and, after a discussion with Tom Meador, the developer, I would like to submit this letter of support for the proposed development.

I believe Mr. Meador's development and our property will be harmonious neighbors in the Oak Park community and beneficial to the real estate market overall.

Therefore, as the owners authorized agent of the building at 855 Lake Street, I support the Application for Planned Development.

Sincerely,

A Khalil

RE: 835 Lake St.

Dear Tom,

We appreciate your sending us a copy of your preliminary design packet for the proposed residential development at 835 Lake St. in Oak Park. As you know our Office (830 North Blvd) is directly across the alley to the south of the project.

I know you will be refining the design to respond the neighbor and village comments, however we believe your design team did a good job in responding to the site and its impact on the neighborhood. We are in support of this project.

Sincerely,
James Lencioni
President

Historic Preservation Commission Advisory Review Letter

This area intentionally left blank
(refer to following pages for exhibit information)

Oak Park 123 Madison Street, Oak Park, Illinois 60302

October 15, 2020

Re: **Advisory Review – 835 Lake Street**

Dear Applicant:

The proposed new building at 835 Lake Street was reviewed at the Historic Preservation Commission meeting on October 8, 2020. As the project does not necessitate the demolition of historic materials, this review is advisory only. The Architectural Review Guidelines recommend the following for new buildings in the historic districts:

Architectural Review Guidelines – New Building Policy

1. A new building in a historic district must be compatible with the size, scale, set-back, massing, material, and character of the buildings which surround it on the same and adjacent blocks (the zone of influence for new buildings is six blocks -- the block on which the building is proposed to be built, the two adjacent blocks on the same side of the street, and the three opposing blocks on the other side of the same street).
2. A new building shall not change the historic character of the other buildings which surround it on the same and adjacent blocks.
3. A new building shall have its front entrance facing the same direction as the majority of buildings on the same block, unless it can be shown that compatibility with adjacent buildings can be achieved better through a different orientation.
4. A new building built in a historic district shall be compatible but visually distinct from other buildings which surround it on the same and adjacent blocks.

Commissioners had the following additional comments:

- The scale, height, horizontal elements, materials, and overall setback, were found to be generally appropriate and compatible with the historic district.
- Massing: The massing was noted as large in comparison to the neighboring buildings, which are much daintier and have a delicacy of architectural style.
- Shadows: It was felt the issue of shadows on Unity Temple has been appropriately addressed. Concern was expressed that the new building will, however, have an impact on the sunlight for the building to the east, but this will improve by the greater setback proposed.
- Color palette: It was recommended that a change in color palette be considered to better reflect the adjacent buildings. This was brought up in public comments and reiterated by the

Commission. It was, however, noted that the current design does incorporate several different colors and materials.
- Windows: Concern was expressed about the amount of glass and potential glare. The window frames were noted as bold and chaotic.
- Impacts: Commissioners felt the applicant appropriately addressed potential impacts.
- Features like solar panels and roof gardens were encouraged as they continue Oak Park's history of progressive architecture.

This letter will be kept on file at the Village as documentation of your Advisory Review. When received, your permit will be approved for Historic Review. If you have any questions, please contact Susie Trexler at strexler@oak-park.us or (708) 358-5443.

Sincerely,

Susie C. Trexler
