COVID-19 Status Report
Oak Park Village Board of Trustees

To: Village President and Village Board of Trustees

Fr: Cara Pavlicek, Village Manager

The memo is a means to share a brief summary of information regarding Village of Oak Park operational activities in response to COVID-19. In most cases, formal public guidance or employee guidance has been publicly disseminated via the Village website or Village social media channels.

The issuance of the Status Reports will be increased to Mondays, Wednesdays and Fridays in response to the slight uptick during this past seven day period.

New Public Health Guidance

The Village of Oak Park Department of Public Health received notification of the following new COVID-19 cases; since last reported:

<u>Date</u>	<u># of Cases</u>	<u>Age of Cases</u>
September 15 (Tuesday)	7	<20s to 60s
September 16 (Wednesday)	1	50s

Excluding individuals for which street addresses are not yet determined, the State of Illinois reports a total of six hundred fifty-eight (658) total Oak Park COVID-19 cases. It is important to note that as patient tracking and case follow-up occurs, individuals listed within the number of Oak Park cases reported may change depending on residency confirmation.

The Oak Park Department of Public Health is notified of positive tests as established by state and local public health protocol. Because of privacy laws, no additional information can be released about the individuals. It is noted, that privacy precludes location information regarding individuals tested to anyone other than Public Health Officials and First Responders.

The Oak Park Department of Public Health is working closely with officials from the Illinois Department of Public Health (IDPH), investigating and notifying anyone who may have had exposure to the individual who tested positive for COVID-19. Local public health officials, hospitals

and first responders are following protocols consistent with the latest guidance from the Centers for Disease Control and Prevention (CDC).

Cases related to Long-Term Care and Assisted Living Facilities

Public Health Director Charley reports an update since the last report issued on Monday August 31, 2020 related to cases in Long-Term Care and Assisted Living Facilities.

Facility Name	# of Resident Cases	# of Resident Deaths	# of Staff Cases
Belmont Village of Oak Park	2	2	5
Berkeley Nursing & Rehab Center	4	3	1
Brookdale Oak Park	8	1	13
Oak Park Arms	6	1	4
Oasis of Oak Park	23	12 (+1)	6

Expiration of Emergency Declaration

Resolution 20-184 adopted by the Village Board on July 27, 2020 declared an emergency affecting the public health through September 14, 2020 due to the outbreak of the COVID-19 disease in the State of Illinois as previously declared by Resolution 20-120, Resolution 20-124 and Resolution 20-128. Although the declaration has expired, it is noted that Chapter 20 of the Village Code was amended on May 28, 2020 to ensure that the Public Health Director was enabled to make such reasonable rules, regulations and orders as may from time to time be deemed necessary without review by the Village Board of Health and approval by the Village Board of Trustees due to the outbreak of COVID-19 disease in the State of Illinois through November 15, 2020.

The novel coronavirus disease is rapidly changing and as such presents challenges as staff works to support economic reopening and respond to the public health impact of the disease. As such, staff may seek another declaration of emergency in the future if the situation warrants and such declaration is needed to provide staff additional tools to respond to these issues by giving the legal authority for rapid mobilization of resources as needed and create the mechanisms necessary for any future reimbursements by the state and federal governments.

Data Review

Public Health Director Charley has shared the following data related to COVID-19.

New cases per 100,000 People is a metric that looks at the number of recent COVID-19 cases per 100,000 people to describe the potential number of people who are currently ill and may be infectious. This is the number of new cases reported by IDPH in the previous week. Calculated as a rate = [Village of Oak Park case count for 7 days] / [Village population]

x100,000. The State is using this metric,

<https://www.dph.illinois.gov/countymetrics?county=Cook> as one of several indicators that measure the health burden of COVID-19 in each Illinois County.

- Oak Park rate: 75/100,000
- Cook County rate: 110/100,000 (8/30/2020 Through 9/5/2020)
- Target for County-level data: Cases for the week are fewer than 10 or the rate is fewer than 50 cases per 100,000 people
- Warning for County-level data: New case rate is greater than 50 cases per 100,000 people

All Cases through 09/14/2020

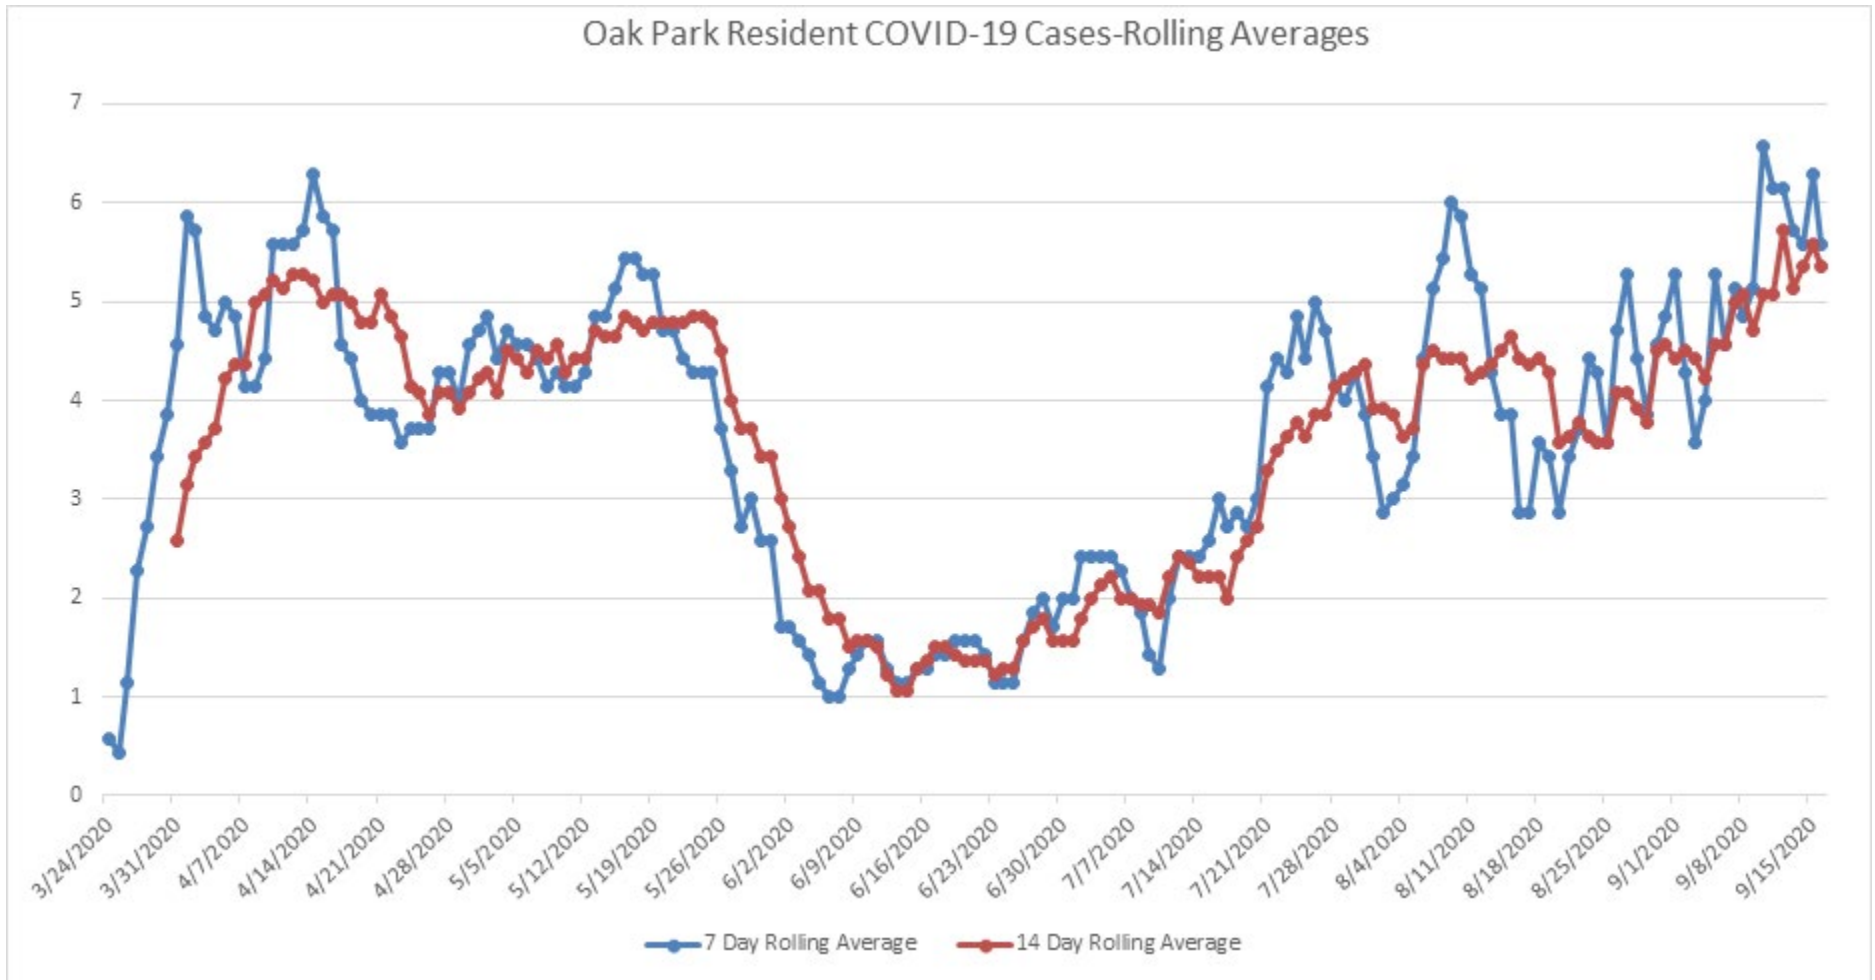

Age Range	Total	% of Cases
0-4	12	1.8%
4-13	19	2.9%
14-19	72	10.9%
20-29	118	17.9%
