

Green Guides pitch-in for a Greener, Healthier, and more Resilient Community!

JOIN US FOR AN OAK PARK GREEN GUIDES KICK-OFF

A **Green Guides Network** is being formed in response to the need to engage people in every neighborhood to reach sustainability goals. To learn more, join us at the **Oak Park Main Library**, 834 Lake St., small meeting room for a **Green Guides** meet-up on one of the following dates:

10 a.m. Thursday, Jan. 28
OR 7 p.m. Tuesday, Feb. 2

We'll share our ideas and get your ideas on how to move the needle on sustainability goals: ** Reduce, reuse & recycle 50% of waste ** Conserve water & keep it clean ** Support our eco-system with native plants and trees ** Meet more of our food needs from local, sustainable growers (including ourselves!) ** Transition to renewable and efficient energy

Small changes can make a big impact when we act together!

The **Green Guides Network** is part of the PlanItGreen sustainability initiative. Organizers include Seven Generations Ahead, Green Community Connections, Interfaith Green Network, Wild Ones and more. **Join us for refreshments, idea-sharing and conversation.** RSVP online or call Sally at 773-315-1109.
